

The Dover Police Department

Would Like to Help You

Keep Your Children Safe

The Dover Police Department Traffic Bureau has a Nationally Certified Child Passenger Safety Technician. Your local police or fire department may also have such a specialist.

What the Certification Means to Dover Residents:

- 4 out of 5 child seats are used wrong. Could yours be one of them?
- You have access to a certified specialist when you have questions about child safety seats.
- You can schedule an appointment for an inspection of your car seat. The goal is to ensure that caregivers are comfortable properly installing the car seat themselves.

For more information or to access these services contact Sergeant Marn Speidel of the Dover Police Department Traffic Bureau at (603) 742-4646 or m.speidel@dover.nh.gov.
