## City of Dover

## Collective Bargaining

Background \& Comparative Information

City of Dover, New Hampshire

March 26, 2014

WHEREAS: On July 12, 2006, at its regular meeting, the City Council resolved to create a Labor Policy Committee of three (3) City Council Members, appointed by the Mayor, to review and recommend the establishment of long-range objectives to serve as a guideline for labor relations and policy issues.

WHEREAS: In establishing such a guideline, the Mayor and City Council desire to promote fair and equitable compensation and benefit programs consistent with general employment market trends to its employees that will also benefit the City.

WHEREAS: The Labor Policy Committee has presented to the City Council their report which includes their recommendations and background information.

NOW, THEREFORE, BE IT RESOLVED BY THE MAYOR AND DOVER CITY COUNCIL THAT:
The following objectives be established:

1. Continue with a fixed step pay system and explore options to reward employees for exceptional performance, such as through a gain sharing program.
2. Explore options to revise the City's longevity program.
3. Maintain a negotiated wage percentage increase versus a COLA percentage tied to any Consumer Price Index (CPI).
4. Develop and implement a formal Exit Interview Program to determine why employees are leaving the City's employ.
5. Provide a salary study of both the private and public sectors within a 20 mile radius of Dover for front line employees and a 40 mile radius for supervisory staff positions to be presented to the City Council in January of the year a contract expires.
6. Explore healthcare options, including the health buy-out program, to reduce or minimize the City's budget impact.
7. Revise leave time provisions to reduce or minimize the City's long-term liability.
8. Recognize the impact of the City's obligation toward New Hampshire Retirement benefits and how it contributes to the total benefits package.
9. Continue to explore and suggest options to foster commonality between City and School operations.

## AND, FURTHER BE IT RESOLVED THAT:

The objectives stated above are only intended to serve as a guideline. The City Manager is fully authorized to negotiate over any and all terms and conditions of employment, and the City Council will consider any tentative agreement reached between the City Manager and the City's employees.

Resolution Number: R-2007.01.24-013

City of Dover

## Resolution Background Material:

The Labor Policy Committee (LPC) met on six (6) occasions between October, 2006 and January, 2007.
The LPC reviewed the recommendations from the former Ad-Hoc Committee on Personnel Policy and Compensation. As part of the review the LPC determined what had been completed and what is still pertinent.

In addition to the report review, new issues were identified and discussed.
Committee members reviewed material which includes, but is not limited to, public sector wage and benefit offerings, benefit trends, organizational climate survey information, as well as exploring what resource(s) would be used to compile private sector wage data.

The LPC heard presentations from a number of union representatives wishing to share their union's perspective on a variety of issues.

City of Dover

## LABOR POLICY COMMITTEE - REPORT

## TO: CITY COUNCIL

FROM: LABOR POLICY COMMITTEE MAYOR SCOTT MYERS, CHAIR COUNCILOR DOUGLAS DEDE COUNCILOR DEAN TREFETHEN

## SUBJECT: LABOR POLICY COMMITTEE REPORT AND RECOMMENDATIONS

DATE: JANUARY 4, 2007

The following report from the Labor Policy Committee includes background information on the City of Dover's goals in the areas of labor policy practices and controlling long-term liability costs. The Labor Policy Committee utilized the former AD-Hoc Committee on Personnel Policy and Compensation's report, dated February 15, 1997, as a starting point. The report was reviewed to determine what issues had been completed and what is still pertinent. In addition to the report review, new issues were identified and discussed. It is the intent of this Committee to provide recommendations and preferences for consideration by the City Council. Once endorsed by the City Council, the final report would become a policy for the City to use as a guideline. It is recommended the final, endorsed report be presented to all new / incoming City Council members to provide insight regarding the direction of the City as it relates to labor relations and policy issues, as well as, how the direction was determined.

## Background

In July, 1996, the City Council recognized a need to establish an Ad-Hoc Committee on Personnel Policy and Compensation to establish a consistent and longer term policy addressing specific personnel policy and compensation matters. The specific areas examined by the AdHoc Committee members included the City's compensation system, insurance benefits, leave program, and ability to use the Fair Labor Standards Act overtime exemption for certain salary designated employees. In considering the various issues involved in these keys areas, the AdHoc Committee formulated several recommendations to be included as part of an overall compensation policy. A summary of the various issues, identified by the former committee, in each of the key areas; recommendations made; and accomplishments follow.

1. Complete a review of and maintain competitive wage schedule information for all position classifications through periodic wage studies.

Comparative wage data is collected annually through the Local Government Center's ("LGC") Annual Wage, Salary, and Benefits Survey for Municipalities and CareerInfoNet.org. The LGC Annual Survey is a compilation of data received from questionnaires sent to all 234 New Hampshire communities. The survey is designed to

## City of Dover

## Labor Policy Committee - Report

guide communities with their compensation and benefit policies. Caution should be exercised when comparing wages, as there are often considerable differences in responsibilities in jobs with similar or identical job titles. Also, differences in salary levels may reflect regional differences in the cost of living and the ability of the municipality to compensate employees. Nonetheless, the survey is an extremely valuable document in comparing salaries and related items. The City of Dover has used population to determine comparable communities to compare ourselves with. The comparison wages from this survey are displayed as Min., Median, and Max. wages. When displaying Dover's wage information Min., Actual, and Max. are used.

CareerInfoNet.org provides national, state and local career information and labor market data using career tools, career reports, a career resource library and other web-based tools and provides data from a variety of federal and state sources, including the Bureau of Labor Statistics (BLS) and the Occupational Information Network (O*NET) at the U.S. Department of Labor; the U.S. Department of Education; the Bureau of Economic Analysis at the U.S. Department of Commerce; the Bureau of the Census at the U.S. Department of Commerce; and other Federal, State, and private institutions. With this website the City of Dover has the ability to compare wage information from selected regions. The City of Dover has been using data from the Portsmouth - Rochester, NH ME region whenever possible. On the rare instances when there is no data available for this region, the Boston, MA - NH region would be used and noted. The comparison wages from this website are displayed as low, median, and high wages.

When compiling and comparing wage data the City attempts to maintain wages based on the compensation philosophy summarized in the City of Dover, NH Compensation Program Overview (attached). In accordance with the City's compensation philosophy, the City attempts to maintain pay levels for its employees which are based upon median pay rates reported for similar jobs identified in both the public and private sector markets. The City's objective is "to not be the highest and to not be the lowest" in terms of pay rates. Using the two resources above allows the City to make those comparisons.
2. Eliminate the existing merit pay program and institute a fixed step pay system.

The transition of going from a merit pay program to a fixed step pay system has occurred through ongoing negotiations starting with 1996-1999 Collective Bargaining Agreements. Four (4) unions (DPEA, IAFF, DPFOA, and DPAAII) converted to the fixed step plan for FY99. The remaining three (3) unions had conversions to the step plan when AFSCME converted in FY00, DMEA in FY03, and finally DPA in FY06.

One advantage to having a fixed step pay system is that it allows the City to budget more accurately for its personal services each year of the contract. In earlier years of this conversion wage schedules were increased annually based on the Boston CPI-U with a minimum and maximum percentage increase attached to it. More recently, a fixed

City of Dover

## Labor Policy Committee - Report

annual percentage adjustment was implemented for wage schedule increases, which allows for even greater accuracy in budgeting personnel. A disadvantage to having a fixed step pay system is that the minimum criteria to receive a step increase are to have the completion of a "satisfactory" evaluation, therefore there is no incentive for employees to "over achieve."
3. Continue longevity programs rewarding employees by providing a payment on the basis of continuous years of service with the City. Such payments should be made after an employee achieves the maximum amount for their position as allowed in the wage schedule.

Since employee turnover can be very costly the use of longevity payments was seen as a way to reward employees for the achievement of completing a specified number of continuous years of service with the City.
4. Provide an annual bonus program to be awarded by the City Council upon recommendation of the City Manager for those employees demonstrating meritorious service above and beyond regular performance expectations.

The intent of this recommendation was to reward employees for going "above and beyond" the requirements of their job. This was thought to be significant because it could be used in conjunction with the implementation of a fixed step pay system. With a fixed step plan in place this would allow for recognition of those employees that were doing more than they were required to in their jobs.

Not much, if anything, has been done in the area of an annual bonus program. The City once had an "Employee of the Year" recognition program, but for the same reasons that little has been done with a bonus program, the "Employee of the Year" program has been defunct. Programs recognizing "individual" contributors can be too subjective and may be viewed as promoting favoritism.
5. Institute a cafeteria style fixed benefit program for all benefit eligible employees.

A true cafeteria style benefits program provides a fixed dollar amount per employee with a list of various benefit offerings for the employee to choose from with their fixed dollar amount. This type of program allows the employee to select what benefits are most beneficial to them individually.

The City implemented a pseudo cafeteria plan in that we have a wide array of benefit offerings, but many of them are standardized benefits that are determined through negotiations. As an example, employees eligible for health insurance benefits pay a negotiated percentage of the premium. Each regular full-time employee is required to have, at a minimum, a basic package of health and dental insurance, which makes having a true cafeteria plan more difficult.

City of Dover

## Labor Policy Committee - Report

6. Implement a consolidated earned time leave program.

The intent of the Ad-Hoc Committee was to consolidate the various leave allowances, including annual, personal sickness, military, and bereavement into a single pool of leave time that would accrue on a regular basis with a cap and buy back provisions intended to minimize the City's unfunded leave liability.

The consolidation of leave time has not been implemented to date. The difficulty with this type of provision is in determining the total number of consolidated leave hours to be granted, as well as the cap amount.
7. Identify and classify as exempt those positions that qualify as such under the provisions of the Fair Labor Standards Act ("FLSA").

The intent of identifying and classifying positions that qualify as exempt under the provisions of the FLSA was to utilize the overtime exemptions that are in effect for exempt positions.

All positions were reviewed and identified positions meeting the requirements for exempt status through FLSA were acknowledged and changed. When a new position is created the job responsibilities for the new position are evaluated to determine if it qualifies for exempt status.

At its regular meeting on July 12, 2006, the City Council passed a resolution (attached) to create a Labor Policy Committee to review and recommend the establishment of long-range objectives for the City. Further, the Labor Policy Committee would provide a report of their recommendations to the City Council on or before January 10, 2007.

The Labor Policy Committee reviewed the recommendations provided by the former Ad-Hoc Committee and discussed their continued relevance and preference. Once the former committee recommendations were reviewed, discussion ensued regarding any additional recommendations this committee would be interested in exploring or noting in their report. A bulleted list of the Labor Policy Committee recommendations follow in the Recommendations section of this report. A detailed account of each is provided later in the report under Personnel Policy and Compensation Issues.

## Recommendations

In light of the information the Labor Policy Committee has reviewed, the following recommendations are being provided to the City Council for consideration in establishing a consistent, long-term, overall direction for the City's labor relations policy.

City of Dover

## Labor Policy Committee - Report

1. Continue with a fixed step pay system and explore options to reward employees for exceptional performance, such as through a gain sharing program.
2. Explore options to revise the City's longevity program.
3. Maintain a negotiated wage percentage increase versus a COLA percentage tied to any Consumer Price Index (CPI).
4. Develop and implement a formal Exit Interview Program to determine why employees are leaving the City's employ.
5. Provide a salary study of both the private and public sectors within a 20 mile radius of Dover for front line employees and a 40 mile radius for supervisory staff positions to be presented to the City Council in January of the year a contract expires.
6. Explore healthcare options, including the health buy-out program, to reduce or minimize the City's budget impact.
7. Revise leave time provisions to reduce or minimize the City's long-term liability.
8. Recognize the impact of the City's obligation toward New Hampshire Retirement benefits and how it contributes to the total benefits package.
9. Continue to explore and suggest options to foster commonality between City and School operations.

## Personnel Policy and Compensation Issues

The following provides a detailed account of the various personnel and policy issues the Labor Policy Committee agreed should be addressed over the next decade along with the committee's recommendations for each issue. The identification of issues and recommendations are meant to serve as a general guideline for the City to use when dealing with compensation and policy issues in the future.

## Compensation:

The City's employee compensation system is currently comprised of two core components. There is an established minimum and maximum salary range for each class of position. These rates are adjusted annually by a negotiated set percentage. Union employees fall on a fixedstep in the wage schedule and are eligible to receive a step increase annually upon a "satisfactory" or better evaluation on their anniversary date until reaching the maximum step allowed. Non-union employees receive annual salary adjustments on their anniversary date based on merit as outlined in the City of Dover's Merit Plan (attached). The Merit Plan, which refers to the Job Classification Plan and the Step Wage Schedules, is amended as deemed

City of Dover

## Labor Policy Committee - Report

necessary by the City Manager with final approval by the Dover City Council. The pay plan, as it relates to those positions represented by collective bargaining units is a negotiated item in the respective collective bargaining agreements, with final approval of the City Council.

Currently, the City compiles salary data, for comparison with comparable communities, through the use of the annual Local Government Center Wage, Salary, and Benefits Survey for Municipalities. It is the Committee's opinion that the disparity that existed between public and private sector wages no longer exists and that, if anything, a shift has occurred that, on average, places private sector wages at or below those of comparable public sector positions. Some time ago the City moved away from a merit based pay system for its unionized workers and has utilized a fixed step pay system in its place. The purpose of going to a fixed step pay plan was to remove the perceived or actual subjectivity of a merit based plan, but by doing so, the City has potentially removed incentive for employees to perform at a higher than satisfactory level.

## Recommendation:

- Continue with a fixed step pay system and explore options to reward employees for exceptional performance, such as through a gain sharing program. The fixed step pay system takes the subjectivity out of pay increases and allows for more accurate budgeting from year to year. Additionally, the extension of steps stretches out the amount of time that it takes an employee to reach the maximum pay range. The exploration of a reward system for exceptional performance may encourage employees to perform at a higher than satisfactory level. The reward system should be based on department performance versus individual performance, again, to keep subjectivity out of it. An example may be that if a department implements a practice that saves the department a significant amount of money, a portion of the savings may be given back to the department as a reward to be used for a special piece of equipment, training, special project, etc.
- Maintain a negotiated wage percentage increase versus a COLA percentage tied to any Consumer Price Index (CPI). By maintaining set percentage increases it allows the City to more accurately budget for its personnel from year to year. It is understood that the negotiated percentage may not accurately reflect what is happening with the economy, but that risk goes both ways. There may be years when the negotiated percentage is greater than the CPI and other years when it may be less than CPI. Additionally, the use of a fixed percentage allows the City to follow its compensation program philosophy, which is to try and maintain City wages at a median range when compared to other communities and the private sector.
- Provide a salary study of both the private and public sectors within a 20 to 40 mile radius of Dover to be presented to the City Council in January of the year a contract expires. A salary study will allow the City to compare its wages against other communities and private employers for similar positions. The salary study should show the public sector and private sector wage information separate from one another so as to not skew the

## City of Dover

## LABOR POLICY COMMITTEE - REPORT

data by combining them. The salary survey will provide the City with a picture of how well we are managing salaries according to our compensation program by maintaining salary ranges that are in the median range when compared to other communities.

## Longevity Payments:

The City currently provides longevity payments to employees based upon their length of service to the City. These payments are provided for a specified number of years of continuous service as established in the various collective bargaining agreements and the Merit Plan. The longevity payments are made as a lump sum during the first full pay period in December of each year. Payments start at the completion of five (5) years of service and increase in five (5) year increments up to twenty plus (20+) years of service.

The City's collective bargaining agreements and Merit Plan have included longevity payments for some time. The concept surrounding longevity has been to reward employees for their continuous service and dedication to the organization. In the early 1990's the longevity program varied dramatically from union to union. Some implemented longevity payments after 10 years of continuous service, some increased payments through 30+ years of service, and still others had longevity payments as a percentage of base salary versus a set dollar amount. In the last decade tremendous progress was made by implementing a uniform longevity payment schedule that applied to all unions and the Merit Plan.

## Recommendation:

- Explore options to revise the City's longevity program. The original concept behind longevity payments is to reward employees for continuous years of service and dedication to the organization. Additionally, the intent of longevity has been viewed as a means to provide a monetary reward for employees that have reached the maximum salary range. It is for that reason it has been suggested that other options be considered for the longevity program. One suggestion was to have longevity start after ten (10) years of continuous service and/or after the employee has reached the maximum pay range for their classification.

## Insurance Benefits:

The City currently makes available to eligible employees a standard package of insurance benefits. This comprehensive benefit package includes a number of choices in the areas of health and dental insurance. There are life and disability insurances for eligible employees, as well. The City also provides a number of supplemental benefits that are optional through the use of payroll deductions, such as flexible spending accounts, 457 deferred compensation plans, additional life and disability insurances, as well as home and auto insurances.

## City of Dover

## Labor Policy Committee - Report

Health plan offerings currently available to eligible employees include the traditional Anthem Blue Cross and Blue Shield JW and Comp 100 plans; BlueChoice Three-Tier Plan (POS); Matthew Thornton Blue (HMO); and Lumenos Enhanced Option (Consumer-Driven). Dental plan offerings include Base, Mid, and High levels of the Delta Dental A, B, C, \& D service plans. Coverage under the terms of both the health and dental plans are made available to employees for either single, two-person, or family coverage. As of the date of this report, the cost share for health insurance premiums varies by union, not by design, but because there are some unions working under current Agreements and others working under expired Agreements at status quo. The City currently pays $100 \%$ of the dental premium up to twoperson base coverage. The cost to increase to mid / high coverage and/or family plan option is borne by the employee (the difference from two-person base coverage).

In considering the offerings of the City's insurance benefit program, it should be noted that employers typically provide a basic level of insurance benefits to meet the reasonable needs of both the employee and the organization. Employers generally provide access to group insurance benefits which an employee would typically be unable to obtain on their own. An employer also often makes available a basic level of insurance coverage in order to protect the investment that they have in an employee. As with maintaining a competitive wage schedule, a comprehensive offering of insurance benefits extends the basic benefit offerings to further aid in recruiting and retaining qualified and valued employees. However, with that being said, there is also a need to control or reduce the impact on the City's taxpayers by increasing the employee participation in the cost of their health insurance consistent with what is happening in the general employment market.

## Recommendation:

- Explore healthcare options, including the health buyout program, to reduce or minimize the City's budget impact. Through the use of a cost benefit analysis optimum buyout percentage(s) should be determined. Realizing that many aspects of health insurance premium costs are out of our control the City may benefit by researching options for different plan types and increased employee participation in the cost of health insurance programs consistent with the general employment market trends to reduce the impact on the taxpayers of the City.

## Leave Program:

The City's leave program consists of various provisions for compensated annual, personal illness, military, jury, bereavement, and special leaves. Many of the leave provisions have been standardized between the various collective bargaining units, although certain differences in accrual rates, maximum accrual caps, and use restrictions remain. Over the past decade an attempt has been made to address the City's growing unfunded liability for accrued sick and annual leave. Provisions have been made to grandfathered employees on an agreed upon date and provides ten (10) ten personal illness leave days each year with no carry-over or accrual allowed from year to year. Provisions have also been put in place

City of Dover

## LABOR POLICY COMMITTEE - REPORT

to buy-down grandfathered personal leave in order to reduce the City's long-term liability. There has been discussion amongst the Committee members that a consolidated leave that covers all types of leave combined in one pool would be the ideal, but the Committee also realizes that a consolidated leave plan is unlikely to occur.

## Recommendation:

- Revise leave time provisions to reduce or minimize the City's unfunded, long-term liability. Although the concern for long-term liability exists there is also a concern that employees are not utilizing their annual vacation leave to its fullest. It is the City's belief that employees should use their annual vacation leave to have periods of rest and spend time with their family and friends. A 'use it or lose it' policy needs to gradually become part of the culture regarding leave time with some limited flexibility.

## Other Benefits:

There has been much concern over the percentage increase costs being placed on employers for participants of the New Hampshire Retirement System (NHRS). NHRS is a multi-employer contributory defined benefit plan qualified as a tax-exempt entity under section 401 (a) and 501 (a) of the Internal Revenue Code. The System provides retirement, disability, and death benefits to its eligible members and their beneficiaries. NHRS also administers a separate postretirement medical benefit, which provides a subsidy for postretirement health insurance premiums for eligible pension plan members.

As a defined benefit plan, NHRS provides retirement benefits which are based on a formula that measures service and salary; the benefits are not based on how much the individual pays into the plan or how well his or her investments perform. The more service members have with NHRS and the more income they earn throughout their career, the greater the amount that their pension benefits will be. With a defined benefit plan, individuals do not assume the risk.

Although New Hampshire Retirement benefits are not an item open to negotiation it is the opinion of the Committee that it is a staffing cost that needs to be considered nonetheless as being part of an employee's total salary and benefit package.

## Recommendation:

- Recognize the impact of the City's obligation toward New Hampshire Retirement benefits and how it contributes to the total benefits package. The City needs to continue to advocate for greater participation on the New Hampshire Retirement System Board.

## City of Dover

## LABOR POLICY COMMITTEE - REPORT

## Policy and Business Operations:

Currently the City of Dover does not have an official "Exit Interview" program to determine why individuals are leaving the City's employ. Informally, management may hear why people are leaving, but there is no formal mechanism in place to document the reasons. Knowing why people are leaving can be a useful tool as organizational turnover can be very costly.

The Labor Policy Committee also expressed the desire to encourage pursuing opportunities where City and School services may be consolidated and information shared. This suggestion is a desire to explore areas where there can be a commonality between the two organizations that will benefit the City of Dover and its taxpayers.

## Recommendation:

- Develop and implement a formal Exit Interview Program to determine why employees are leaving the City's employ. The information from a formal exit interview program can be a wonderful tool for the City to gauge its competitiveness in all aspects of its business. If the City is losing its employees to other organizations that have better wages, benefits, working conditions, etc. this process will bring that out and allow the City to determine how to best address improvements that may need to be made. Additionally, it may validate that we are very competitive if the majority of the employees are leaving for other reasons, such as relocation.
- Continue to explore and suggest options to foster commonality between City and School operations. Areas should be explored that will benefit the City, its taxpayers, and streamline processes and operations.

## Summary

During this process, the Labor Policy Committee has addressed a number of areas in which it believes there is room for improvement that will benefit the City, but still be equitable to the City's employees. The committee also discussed many additional ideas and changes that ultimately did not become a part of the final policy recommendations. As a part of the Labor Policy Committee's meeting schedule, an opportunity was offered for representatives of the City's seven Employee Unions to address the committee and share their respective viewpoints. Common threads from those comments heard included that it was important for City Councils to understand the history of these contracts and the changes agreed to over the years, that City employees are an important part of the "infrastructure" of the City, even though the City Council wants to negotiate similar contracts with all of the unions at the same time - not all unions have the same needs, there is concern over the impact of higher health insurance costs to the employees and a desire to reestablish a Healthcare Committee as employees and the City both have a vested interest.

City of Dover

## Labor Policy Committee - Report

The Labor Policy Committee encourages that a consensus be established by the City Council in order to provide specific direction which can be communicated to the City Manager. Such consensus will also provide longer term direction in making improvements to labor policy and human relations issues.

It is recommended the final, endorsed report be presented to all new / incoming City Council members in order to provide insight regarding the direction of the City as it relates to labor relations and policy issues as well as how the direction was determined. It is further recommended this information and review process be reviewed and updated through the use of a sub-committee in 2015 or earlier if deemed appropriate.

Committee members will be pleased to address any questions or offer any additional information that may be necessary.

## City of Dover, NH FY2014 Labor Negotiations Background Information

## Previous Negotiating Objectives/Accomplishments:

- Overarching labor policy and negotiating objectives studied and established by prior City Councils with stated purpose: "to promote fair and equitable compensation and benefit programs consistent with general employment market trends to its employees that will also benefit the City."
- Completed a comprehensive wage survey and implemented negotiated fixed step wage schedules based upon an analysis of market competitiveness and internal equity (AFSCME, DPEA, DPAAII, IAFF, DPFOA, DMEA).
- Included contractual provisions to preserve and utilize the Fair Labor Standards Act overtime exemptions for certain position classifications (DPFOA, DPAAII, DPEA).
- Included contractual provisions to introduce and make greater use of flex time for certain labor, administrative and clerical positions (AFSCME, DMEA, DPEA).
- Instituted insurance premium cost containment strategies through implementation of a Cafeteria Style benefits program and percentage increase based employee premium co-payments (DPAAII, DPA, IAFF, DPFOA, DMEA, AFSCME, DPEA).
- Continue the standardization of certain contract provisions between all unions to improve efficiency of contract administration/application (DPAAII, DPA, IAFF, DPFOA, DMEA, AFSCME, DPEA).
- Support established compensation philosophy by maintaining step/merit based on longevity and maintaining internal equity and market competitiveness (not the highest/not the lowest). Continue to utilize lag the market structure changes - $0 \%$ COLA increase.
- Amended contractual language and reduced the growing liability related to retiree health care costs and leave accruals (DPAAII, DPA, IAFF, DPFOA, DMEA, AFSCME, DPEA).
- Provide retirement incentive to reduce payroll costs.
- Address other work rule issues specific to individual unions/departments
- Suspended cost of living increases and negotiated voluntary across the board wage freezes and pay reductions.

* Fiscal Year: Rate changes took effect on Jan. 1 until 1979, when the effective date was changed to July 1 to coincide with the fiscal year.
** Employer Rates: The rates listed above are the total employer contribution rates. In 2008, legislation was passed to include both a pension and a Medical Subsidy portion as part of the total employer contribution rate, which may result in a difference in the employer rates for state and non-state employees. Visit the NHRS website at http://www.nhrs.org/Employers/Rates.aspx to view a breakdown of the pension and Medical Subsidy percentages. Note: Group II employers do not pay the Social Security tax, currently $6.2 \%$ on earnings up to $\$ 110,100$.
*** Member Rates: Group I includes Employee and Teacher members; Group II includes Police and Fire members. Member rates are set by the New Hampshire Legislature. Prior to 1977, employee contribution rates were assessed on a sliding scale based on age, and, for Group I only, gender. Prior to 1989, Group I members contributed $4.60 \%$ up to the Social Security taxable wage limit and $9.20 \%$ on any excess.
${ }_{* * * *}$ The member contribution rate for state employees whose employment began on or after July 1, 2009, is $7.0 \%$.
${ }^{\wedge}$ Employer rates were recertified effective Aug. 1, 2011, to reflect 2011 legislative changes.
~ Effective July 1, 2011, the member contribution rates increase to $7.0 \%$ for all Group I members, $11.55 \%$ for Group II Police members, and 11.80\% for Group II Fire members.

## Normal Retirement Requirements

Ine NHKS is a detined benetit pian. rensions are calculated on a tormula based on salary and years of service, not on the amounts contributed to the plan. Municipal (Group I) employees and Police and Fire (Group II) employees retirement age and years of service requirements vary based on date of hire and when the participant is vested in the plan. Please see attached NHRS Plan Detail information sheets for each employee group.

## Normal Retirement Benefits

Municipal - Group I and Police \& Firefighters - Group II:
Retirement Benefits vary based on each employee group, dates of hire, and when the participant is vested in the plan. Please see attached NHRS Plan Detail information sheets for each employee group.

## Retirement Health Care

By statute, all retirees, at their own cost, may belong to the group health plan of the municipality from which they retired. Retirees that meet certain years of service and age requirements receive a subsidy from NHRS toward the cost of health insurance.

## Salary Increases

*Voluntary employee wage freezes and wage reductions

## City History of COLAs and Step/Merit

In all instances when referencing whether step/merit allowed, it is with the understanding that it applies only to those that were eligible to receive a step or merit increase. If employee at top step (maxed) they would not be eligible to receive a step/merit.

## UNION and NON-UNION EMPLOYEES

| Fiscal Year | Start Date | End Date | Union/Non-Union | COLA \% | Step/Merit? | Lump Sum Bonus |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

|  |  |  | AFSCME, DPEA, DPA, DPAAII, \& Non-Union | 0.00\% | Y |  |
| 12 | 7/1/11 | 6/30/12 | All | 0.00\% | Y | None |
| 13 | 7/1/12 | 6/30/13 | All | 0.00\% | $\begin{gathered} \mathrm{Y} \\ 36 \% \text { at Max } \end{gathered}$ | \$1,250 if not eligible for step $\$ 1,000$ if eligible for step (Intended for foregoing step in FY10) |
| 14 | 7/1/13 | 6/30/14 | All | 0.00\% | $\begin{gathered} \mathrm{Y} \\ 34 \% \text { at Max } \end{gathered}$ | \$1,250 if not eligible for step $\$ 1,000$ if eligible for step (Intended for foregoing step in FY10) |

## DEPARTMENT HEADS

Department Heads do not receive COLA increases; they receive annual merit increases on their anniversary date, based on performance and can range anywhere from $0 \%$ to $5 \%$. In FY2010, no department heads received a merit increase. In addition, eight Department Heads \& the City Manager voluntarily reduced their salaries in FY2010.

## Employer Costs for Employee Compensation for the Regions DECEMBER 2013

Employer costs for employee compensation in private industry among the four regions of the country ranged from $\$ 26.93$ per hour in the South to $\$ 33.87$ in the Northeast during December 2013, the U.S. Bureau of Labor Statistics reported today. Regional Commissioner Deborah A. Brown noted that hourly employer costs for employee compensation in the other two regions were $\$ 28.44$ in the Midwest and $\$ 31.44$ in the West. (See chart 1.) In addition to regional estimates, employer costs for nine smaller geographic divisions are also available. Within divisions, total compensation costs ranged from $\$ 24.27$ per hour in the East South Central division to $\$ 34.40$ in the New England division. (See table 1.) Employer Costs for Employee Compensation (ECEC) are based on the National Compensation Survey, which measures employer costs for wages, salaries, and employee benefits. (Geographic definitions of the regions and divisions follow in the Technical Note.)

Chart 1. Employer costs per hour worked for employee compensation in private industry by region, December 2013

[^0] Source: U.S. Bureau of Labor Statistics.

In the Northeast, hourly total compensation costs were comprised of the following: wages and salaries ( $\$ 23.25$ ) made up 68.7 percent, while total benefits ( $\$ 10.61$ ) accounted for the remaining 31.3 percent. Insurance costs, which include life, health, and short- and long-term disability, averaged $\$ 2.96$ per hour worked and 8.7 percent of all compensation costs. Legally required benefits, which include Social Security and Medicare, workers' compensation, and unemployment insurance, averaged $\$ 2.78$ per hour and represented 8.2 percent of total compensation costs. Paid leave benefits, which includes vacation, holiday, sick, and personal leave, was $\$ 2.51$ per hour worked and accounted for 7.4 percent of total compensation costs.

Hourly wages and salaries averaged $\$ 22.05$ in the West and accounted for 70.1 percent of all compensation costs. Total benefits averaged $\$ 9.39$, or 29.9 percent of total compensation costs. Legally required benefits averaged $\$ 2.66$ per hour worked and accounted for 8.5 percent of total compensation costs in the West. Insurance benefits averaged $\$ 2.45$ per hour and represented 7.8 percent of all employer costs, while paid leave was $\$ 2.13$, or 6.8 percent of total compensation costs.

The Midwest Region recorded an hourly wage and salary average of $\$ 19.84$ in December 2013, which represented 69.7 percent of all compensation costs. Total benefits averaged $\$ 8.61$ and accounted for the remaining 30.3 percent of total compensation costs. The three highest categories for employer benefit costs included: insurance benefits (\$2.55 per hour worked), legally required benefits (\$2.33), and paid leave (\$1.95). These categories represented 9.0 percent, 8.2 percent, and 6.8 percent, respectively, of total employer compensation costs in the Midwest.

In the South, wages and salaries averaged $\$ 19.20$ per hour and comprised 71.3 percent of total employer compensation, while total benefits, at $\$ 7.73$ per hour, accounted for the remaining 28.7 percent. Legally required benefits represented the largest benefit category, averaging $\$ 2.14$ per hour worked, or 8.0 percent of total compensation costs. Insurance benefits, at $\$ 2.08$ per hour, or 7.7 percent of total compensation costs, represented the second largest benefit category in the South. Paid leave, the third largest benefit category, averaged $\$ 1.81$ per hour and represented 6.7 percent of all costs.

Overall, compensation costs among private industry employers in the United States averaged \$29.63 per hour worked in December 2013. Wages and salaries, at $\$ 20.76$ per hour, accounted for 70.1 percent of these costs, while benefits, at $\$ 8.87$, made up the remaining 29.9 percent.

## Introduction of 2010 Standard Occupational Classification (SOC)

Beginning with this release, Employer Costs for Employee Compensation estimates are based on 2010 Standard Occupational Classification (SOC). No substantive changes occurred in occupational coverage for about 90 percent of the detailed occupations in the 2010 SOC. However, the detailed occupation Registered Nurses did undergo classification changes. For information see www.bls.gov/soc.

## Technical note

Employer Costs for Employee Compensation (ECEC) measures the average cost to employers for wages and salaries and benefits per employee hour worked.

Employer Costs for Employee Compensation data in this release cover private industry. Excluded from private industry are the self-employed and farm and private household workers. The cost levels for this quarter were collected from a probability sample of approximately 44,200 occupations selected from a sample of about 9,100 establishments in private industry. The private industry sample is rotated over approximately 5 years, which makes the sample more representative of the economy and reduces respondent burden. Data are collected for the pay period including the $12^{\text {th }}$ day of the survey months of March, June, September, and December.

Employer Costs for Employee Compensation data on total compensation, wages and salaries, and benefits in private industry are produced annually in the March reference period for 15 combined and metropolitan statistical areas (CSA and MSA). Further information about metropolitan area ECEC estimates is available at www.bls.gov/opub/mlr/cwc/bls-introduces-new-employer-costs-for-employee-compensation-data-for-private-industry-workers-in-15-metropolitan-areas.pdf.

For detailed information on Employer Costs for Employee Compensation, see Chapter 8, National Compensation Measures, of the BLS Handbook of Methods at www.bls.gov/opub/hom/pdf/homch8.pdf.

Current and historical BLS data are also posted on our Web site at www.bls.gov/ect.
Information from the Employer Costs for Employee Compensation program is available to sensory impaired individuals upon request. Voice phone: (202) 691-5200; Federal Relay Service:

Survey Data

## City of Dover, NH Compensation Program Overview

## Program Philosophy

The City of Dover's compensation program is a basic management tool which serves to attract, retain and motivate employees in achieving the objectives of the City. The compensation program is based upon a compensation philosophy outlined in the policy originally adopted by the City Council on April 24, 1996 and is further defined in a report with recommendations prepared by a City Council personnel sub-committee on February 15, 1997. These documents establish and explain the principles that guide the design, implementation and administration of the City's overall program.
"To ensure fair and equitable treatment of all employees and to encourage the further creation of a team concept within and among all City departments so that the work of the City continues to be completed in a professional and fiscally responsible manner"

In accordance with the City's compensation philosophy, the City attempts to maintain pay levels for its employees which are based upon median pay rates reported for similar jobs identified in both the public and private sector markets. The City's objective is "to not be the highest and to not be the lowest" in terms of pay rates. Structural adjustments resulting from changes in regional cost of living changes are applied understanding that they will lag the market. Individual pay adjustments are typically based upon continued satisfactory performance, increased experience in the position held and longevity within the organization.

## Program Activities

The City's compensation program ensures that employees are properly rewarded for work performed, that both internal and external equity are maintained, and that control is maintained over compensation costs. As intended, the program helps to attract top talent, retain core employees, and encourage longevity while effectively using financial resources allocated within the City budget. The administration of the City's compensation program involves the following activities:

1. Job Analysis. Each job in the organization is thoroughly analyzed and described. Job descriptions are developed to include a job summary; a list of the job's "essential" functions and related duties; and the necessary skills, experience, and educational requirements (see attached).
2. Job Evaluation. Job evaluation determines what jobs are worth on an absolute basis and relative to other jobs in the organization and is the means
for establishing the City's Classification Plan (see attached). Both qualitative and quantative methods are used for purposes of checking results of one to the other. The qualitative method consists of a ranking evaluation where positions are paired and ranked in order from highest to lowest value. The quantitative method consists of a point factor comparision where each position has "points" assigned based on the job's complexity, impact, budget, supervisory duties, and so on. Job ranks are based on the total number of points. Jobs that are of greater value to the City have a higher classification grade; jobs of lesser value fill the lower grades.
3. Job Pricing. Job pricing involves determining market based rate ranges; that is, minimum, midpoint, and maximum dollar values for each labor grade. By studying wage and salary surveys, the City relates comparable wages in the public and private sector labor market to the jobs within the organization. A recommended scale of wages is calculated that will allow the organization to compete in the labor market (external equity) while ensuring that jobs of high value to the organization are paid more than those of relatively lower value (internal equity). Ultimately a comparison of market based pay levels is made against the existing Dover pay levels for each labor grade (see attached).
4. Pay Plan. The City's Pay Plan is developed based upon the job pricing activity above and in accordance with the overall compensation philosophy. The pay plan provides a uniform and equitable wage rate schedule consisting of minimum and maximum rates of pay for each class of position and the intermediate steps or increments necessary to allow for advancement based upon satisfactory performance and growth in experience within the organization (see attached). The Pay Plan is incorporated into collective bargaining agreements through the process of negotiations with each of the City's labor unions. Adjustments to the structure to conform with the job pricing results and regional cost of living changes are issues addressed through labor negotiations with a majority of the City's workforce.
5. Pay Administration. Administration of the compensation program involves establishing and monitoring procedures for payment of wages in accordance with the established Classification and Pay Plans and state and federal regulations. Administration entails recruitment and hiring of new employees, documenting current employee performance results, maintaining records of personnel actions including corresponding pay adjustments and processing of wage payments for work performed by employees.

## May 2012 OES Estimates

## Occupational Employment Statistics (OES) Survey

Bureau of Labor Statistics, Department of Labor
website: http:/stat.bls.gov/oes/home.htm
phone: 202-691-6569
Not all fields are available for every set of estimates files

| Field | Field Description |
| :--- | :--- |
| prim_state | The primary State for the MSA (only on MSA file) |
| area | The MSA code or the State fips code |
| st | The State abbreviation (only on the State file) |
| state | The State name (only on the State file) |
| area_name | The MSA name (only on the MSA files) |
| naics | The North American Industry Classification System (NAICS) code for the given industry (only on the <br> national industry files) |
| naics_title | The North American Industry Classification System (NAICS) title for the given industry (only on the national <br> industry files) |
| occ_code | The 7-digit Standard Occupational Classification (SOC) code for the occupation |
| occ_title | The Standard Occupational Classification title for the occupation |
| group | Contains "major" if this is a SOC major group occupation, otherwise this column is blank |
| tot_emp | The estimated total employment rounded to the nearest 10 (excludes self-employed) |
| emp_prse ${ }^{1}$ | The percent relative standard error for the employment |
| pct_total ${ }^{2}$ | The percent of industry employment in the given occupation (only on the national industry files) |
| pct_rpt | The percent of establishments reporting the given occupation in the given industry (only on the national <br> industry files) |
| h_mean | The mean hourly wage |
| a_mean | The mean annual wage |
| mean_prse ${ }^{1}$ | The percent relative standard error for the mean wage |
| h_pct10 | The hourly 10th percentile wage |
| h_pct25 | The hourly 25th percentile wage |
| h_median | The hourly median wage (or the 50th percentile) |
| h_pct75 | The hourly 75th percentile wage |
| h_pct90 | The hourly 90th percentile wage |
| a_pct10 | The annual 10th percentile wage |
| a_pct25 | The annual 25th percentile wage |
| a_median | The annual median wage (or the 50th percentile) |
| a_pct75 | The annual 75th percentile wage |
| a_pct90 | Contains "TRUE" if only the annual wages are released. The OES program only releases the annual wage <br> for some occupations that typically work fewer than 2080 hours per year, such as teachers, pilots, and <br> entertainment workers. |

OES provides annual data on employment and wages for about 800 occupations and 400 nonfarm industries for the nation, plus occupational data by geographic area.

## Employment Cost Index - September 2013

Compensation costs for civilian workers increased 0.4 percent, seasonally adjusted, for the 3-month period ending September 2013, following a 0.5 percent increase in June, the U.S. Bureau of Labor Statistics reported today. Wages and salaries (which make up about 70 percent of compensation costs) increased 0.3 percent in the September quarter, similar to the 0.4 percent increase for the previous period. Benefits (which make up the remaining 30 percent of compensation) increased 0.7 percent, compared to a 0.4 percent increase for the 3-month period ending in June.

## Civilian Workers

Compensation costs for civilian workers increased 1.9 percent for the 12-month period ending September 2013, unchanged from the 12-month period ending in September 2012. Wages and salaries increased 1.6 percent for the current 12-month period. In September 2012, the 12-month increase was 1.7 percent. Benefit costs increased 2.2 percent for the 12-month period ending September 2013, compared with the 2.4 percent increase for the 12-month period ending September 2012.

## Private Industry Workers

Compensation costs for private industry workers increased 1.9 percent over the 12-month period ending September 2013, the same increase as in September 2012. Wages and salaries increased 1.8 percent for the year ending in September 2013, the same increase as the period one year ago. The
increase in the cost of benefits was 2.0 percent for the 12-month period ending September 2013, compared with a 2.2 percent increase in the period ending in September 2012. Health benefit costs increased 2.7 percent. In September 2012, the increase was 2.3 percent.

Among occupational groups, compensation cost increases for private industry workers for the 12-month period ending September 2013 ranged from 1.4 percent for service occupations to 2.1 percent for management, professional, and related occupations.

Among industry supersectors, compensation cost increases for private industry workers for the current 12 -month period ranged from 1.1 percent for leisure and hospitality to 2.2 percent for financial activities industry and other services except public administration industry.

## State and Local Government Workers

Compensation costs for state and local government workers increased 1.7 percent for the 12-month period ending September 2013. In September 2012 the increase was 1.8 percent. Wages and salaries increased 0.9 percent for the 12 -month period ending September 2013, compared with a 1.1 percent increase from a year earlier. Prior values for this series, which began in June 1982, ranged from 1.0 percent to 8.5 percent. Benefit costs increased 2.9 percent in September 2013. In September 2012, the increase was 3.2 percent.

The Employment Cost Index for December 2013 is scheduled to be released on Friday, January 31, 2014, at 8:30 a.m. (EST).

#### Abstract

\section*{Partial Federal Government Shutdown}

The release of these data occurs about 2 weeks later than originally scheduled because of the recent partial Federal government shutdown. Data collection for the estimates in this release had not been completed prior to the shutdown. However, they were collected after the shutdown ended. In addition, the processing of estimates and the production of the Employment Cost Index news release were delayed due to the shutdown.

## Corrections to ECI Data Series

Some Employment Cost Index estimates from September 2012 through March 2013 were corrected on June 26, 2013. (Seasonally adjusted estimates were subject to corrections back to March 2008.) For further information, see: www.bls.gov/bls/eci_corrections_043013.htm.

## Updated Employment Weights

Beginning with the December 2013 news release, the Employment Cost Index will introduce new employment weights based on the 2010 Standard Occupational Classification (SOC) system and the 2012 North American Industry Classification System (NAICS).

## Employer Costs for Employee Compensation - September 2013

Employer costs for employee compensation averaged $\$ 31.16$ per hour worked in September 2013, the U.S. Bureau of Labor Statistics reported today. Wages and salaries averaged $\$ 21.54$ per hour worked and accounted for 69.1 percent of these costs, while benefits averaged $\$ 9.61$ and accounted for the remaining 30.9 percent. Total employer compensation costs for private industry workers averaged \$29.23 per hour worked in September 2013.

Employer Costs for Employee Compensation (ECEC), a product of the National Compensation Survey, measures employer costs for wages, salaries, and employee benefits for nonfarm private and state and local government workers.

Chart 1. Employer costs per hour worked for total compensation: selected industry groups, state and local government workers, September 2013

Chart 2. Employer costs as a percent of total compensation: total benefits, health insurance, and retirement and savings, state and local government workers, September 2003 and September 2013
Percent of total compensation

## Compensation costs in state and local government

State and local government employers spent an average of $\$ 42.51$ per hour worked for employee compensation in September 2013. Wages and salaries averaged $\$ 27.38$ per hour and accounted for 64.4 percent of compensation costs, while benefits averaged $\$ 15.13$ per hour worked and accounted for the remaining 35.6 percent. Total compensation costs for workers in the education and health services industry averaged $\$ 44.57$ per hour worked. Within the education and health services industry, average hourly compensation costs were $\$ 45.30$ for educational services workers and $\$ 40.34$ for health care and
social assistance workers. Total compensation costs for workers in public administration were $\$ 40.66$ per hour worked. (See chart 1 and table 4.)

For state and local government employees, employer costs for insurance benefits were $\$ 5.14$ per hour, or 12.1 percent of total compensation. The largest component of insurance costs in September 2013 was health insurance, which averaged $\$ 4.98$, or 11.7 percent of total compensation. In September 2003, employer costs for health insurance averaged $\$ 3.19$ per employee hour worked, or 9.5 percent of total compensation. (See chart 2 and table 3.)

In September 2013, the average cost for retirement and savings benefits was $\$ 3.97$ per hour worked in state and local government, or 9.3 percent of total compensation. Included in this amount were employer costs for defined benefit plans, which averaged $\$ 3.62$ per hour ( 8.5 percent of total compensation), and defined contribution plans, which averaged 34 cents ( 0.8 percent). In September 2003, employer costs for retirement and savings averaged $\$ 1.99$ per hour worked, or 5.9 percent of total compensation. (See chart 2 and table 3.) Defined benefit plans specify a formula for determining future benefits, while defined contribution plans specify employer contributions but do not guarantee the amount of future benefits.

Two components of benefit costs are paid leave and legally required benefits. Paid leave benefit costs include vacation, holiday, sick leave, and personal leave. The average cost for paid leave was $\$ 3.11$ per hour worked for state and local government employees. Costs for legally required benefits, including Social Security, Medicare, unemployment insurance (both state and federal), and workers' compensation, averaged $\$ 2.56$ per hour worked. (See table 3.)

The National Compensation Survey produces data on the percentage of state and local government workers with access to and participation in employee benefit plans, including health and retirement and savings plans. Detailed data on health and retirement plan provisions are available at http://www.bls.gov/ebs.

Table A. Relative importance of employer costs for employee compensation, September 2013

| Compensation <br> component | Civilian <br> workers | Private <br> industry | State and local <br> government |
| :---: | :---: | :---: | :---: |
| Wages and salaries | $69.1 \%$ | $70.3 \%$ | $64.4 \%$ |
| Benefits | 30.9 | 29.7 | 35.6 |

${ }^{1}$ Farming, fishing, and forestry occupations were combined with construction and extraction occupational group as of December 2006.
2 Includes mining, construction, and manufacturing. The agriculture, forestry, farming, and hunting sector is excluded.

3 Includes utilities; wholesale trade; retail trade; transportation and warehousing; information; finance and insurance; real estate and rental and leasing; professional and technical services; management of companies
and enterprises; administrative and waste services; educational services; health care and social assistance; arts, entertainment and recreation; accommodation and food services; and other services, except public administration.

Note: The sum of individual items may not equal totals due to rounding.

## City History of COLAs and Step/Merit

In all instances when referencing whether step/merit allowed, it is with the understanding that it applies only to those that were eligible to receive a step or merit increase. If employee at top step (maxed) they would not be eligible to receive a step/merit.

UNION and NON-UNION EMPLOYEES

| Fiscal Year | Start Date | End Date | Union/Non-Union | COLA \% | Step/Merit? | Lump Sum Bonus |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 06 | 7/1/05 | 6/30/06 | All | 2.50\% | Y | None |

| 14 | 7/1/13 | 6/30/14 | All | 0.00\% | Y | $\$ 1,250$ if not eligible for step $\$ 1,000$ if eligible for step (Intended for foregoing step in FY10) |

## DEPARTMENT HEADS

Department Heads do not receive COLA increases; they receive annual merit increases on their anniversary date, based on performance and can range anywhere from $0 \%$ to 5\%. In FY2010, no department heads received a merit increase. In addition, eight Department Heads \& the City Manager voluntarily reduced their salaries in FY2010.
