City of Dover, NH - Profile of Government

Geography. Dover, New Hampshire is located ten miles from the Atlantic Ocean in southern New Hampshire and is 48 miles south of Portland, Maine and 68 miles north of Boston, Massachusetts. Situated at the confluence of the Cochecho, Salmon Falls and Bellamy Rivers, Dover is a major New Hampshire industrial, employment, and distribution center for the seacoast. Dover provides a gateway to both the Maine coast and the White Mountains of New Hampshire. The City of Dover occupies an area of 29 square miles and serves a population of 26,884, based on the 2000 Census.

The City of Dover, settled in 1623, is the oldest continuous settlement in New Hampshire and the seventh oldest in the United States. It was incorporated on June 29, 1855 and the current City Charter was adopted on March 9, 1977, remained in effect until a new charter was passed on November 8, 2005 and became effective January 1, 2006. Only minor changes were made versus the old charter. On November 6, 2007, the charter was amended establishing a limitation on annual budget increases. Dover operates under the council-manager form of government. Dover is the seat of Strafford County.

Services. The City of Dover provides a full range of services, including police and fire protection, the construction and maintenance of streets and other infrastructure, sanitation services such as solid waste disposal and recycling, water distribution, wastewater collection and treatment, recreational and cultural events and education from kindergarten through grade 12 with a regional vocational center and alternative high school opportunities.

Governing Boards. The City Council, consisting of nine members, is the legislative body elected in non-partisan elections every two years, with one representative from each of six wards, two elected at-large and a Mayor. The City Council is responsible, among other things, for passing ordinances, adopting the annual budget, adopting a six year capital program, adopting bond authorizations, appointing committees and boards, and hiring of the City Manager. The City of Dover is empowered by state statute to levy property taxes on real property located within its boundaries to fund operations.

The Dover School Department is a dependent school district. The City Council has bottom line appropriation authority for the School Department budget. The seven member Dover School Board is elected in non-partisan elections every two years and has authority to allocate and move appropriations within its budget.

Administration. Administrative functions are carried out by the City Manager. The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the government, and for appointing the heads of the various departments, for negotiating with the various bargaining units of the City and making recommendations to the City Council on various issues.

Administrative functions of the dependent School district are carried out by the School Board. The Board is responsible for carrying out the policies and procedures, compliance with State and Federal laws, overseeing the day to day operations of the dependent school district, negotiating with the various bargaining units, making appointments of school personnel, establishing curriculum and addressing various issues.

Fiscal Year and Budget. The City's fiscal year begins on July 1st of each year and ends the following June 30th. The City's budget process commences in the fall of each year with the Capital Improvements Program budget. All capital spending of \$10,000 or more for items with useful lives of 3 years or longer are included in the budget. Based on City Council financing policy, items are identified for bonding, annual operating budget or other type of financing.

Items identified for the annual operating budget are included in the next City Manager's proposed annual budget. Departments are responsible for submitting their annual budget request to the City Manager. After reviews with the departments, the City Manager makes any final adjustments to his proposed budget. The City Manager's proposed annual budget for the next fiscal year, which includes the School Board request, is due to the City Council by April 15th of each year.

The City Council may add to, or cut from, the Manager's proposed budget by majority vote; however, the City Council must pass the budget by June 15th after separate public hearings for the City and School budgets and the budget becomes effective July 1. If the City Council does not adopt the budget by June 15th, the City Manager's proposed budget takes effect July 1.

After the original budget is adopted, the City Manager may make appropriation transfers within a non-school department or transfer between non-school departments with City Council approval. After initial adoption, the City Council may amend the budget by two-thirds vote.

City of Dover, New Hampshire

OFFICE OF THE CITY MANAGER

April 10, 2013

To the Honorable Mayor and Members of the City Council:

In accordance with the City Charter, I respectfully submit to you the City of Dover's Proposed Budget for Fiscal Year 2014. The sources and uses of funds proposed within this budget include the School Board's approved recommendation for the School Department along with estimates that have been assembled for all other local government functions. This budget proposal, consistent with those submitted in prior years, prioritizes and supports an efficient delivery of core municipal services in the areas of public safety, education and infrastructure maintenance along with other basic yet essential local government activities.

Budget Considerations

The development of the Proposed Fiscal Year 2014 Budget as contained herein involved a thorough review of all municipal functions and service priorities by the elected Dover School Board and our administrative staff in consultation with the citizen members of various advisory boards and commissions. This review was accomplished over the course of several months and was directly influenced by identifying and responding to the varied needs and interests of our customers – our community's residents, businesses and visitors.

Again this year, the service priorities and funding needs incorporated into this budget proposal have been shaped by several different factors. These factors include the strategies and specific goals contained in our community's Master Plan, contractual obligations, state and federal mandates, economic conditions, operational needs and our established financial policies. Each of these factors required different considerations and imposed various constraints in seeking to appropriately balance the allocation of scarce fiscal and other resources in fulfilling our community's overall service requirements.

In striving to meet the needs and expectations of our customers and respond to the various other factors that influence the budgeting process, this budget proposal reflects a total \$115,235,394 for spending from all funds. This is a 2.6% increase over the prior year and one percent more than the change in the year-end average of the Consumer Price Index-Urban for the Boston-Brockton-Nashua, MA-NH-ME-CT region.

Although the proposed budget as assembled for all non-school departments conforms to the tax cap requirements of our City Charter, the school department local property tax levy does not and exceeds the tax cap calculation by \$308,144. As a result, the adoption of this budget as proposed will require a 2/3rd's affirmative vote by the City Council as opposed to a simple majority.

Budget Prioritization

Our community's overall strategic priorities and requirements for municipal services are addressed throughout the proposed budget. These priorities have been derived and continue to be refined by listening to the "voice of our customers". This is accomplished through a number of means including the

engagement of residents and business owners in collaborative planning and community problem solving activities, citizen input provided during public hearings and citizen forums, formal and informal customer surveys, actual demand for services and mandates imposed by our representative legislative bodies. Ultimately, this feedback drives the strategic planning incorporated into our community's Master Plan and yields the following strategic focus areas for the prioritization and allocation of available funds:

- **Public Safety** – Proactively protect citizens and mitigate losses from medical emergencies, crime, fire and natural/manmade disasters.
- **Public Education** – Support and provide access for students to experience opportunities for a quality education.
- **Public Infrastructure** – Maintain safe and reliable public roads, storm water, drinking water and sewer systems, and municipal facilities.
- **Economic Development** – Support and encourage a quality of life that sustains a robust economy and availability of quality employment.
- **Fiscal Stewardship** – Responsibly manage and ensure the sustainability of financial practices necessary for the ongoing provision of all essential municipal services.

Core Service Deliverables

The development of the Proposed Fiscal Year 2014 Budget involved an extensive review and prioritization of core services across all facets of our municipal organization. These core services include the functions of general government, public safety, public works, culture and recreation, human services and education. Also included was our community's required share of funding for intergovernmental services provided by Strafford County.

In evaluating the funding requested and deemed necessary to include in the proposed budget for the core services and various activities and programs delivered by our municipal government, prime consideration was given specifically to those services that were mandated or otherwise legally required to be provided. Additional consideration was given for those services that substantially covered their costs via grants and/or user fees, those services with increasing demand for services and those services that were not otherwise readily available via the private sector.

Throughout the proposed budget, contracting of services to private sector providers is recommended and continued. This includes continuing contracting in the areas of grounds care maintenance, road and utility construction, solid waste and recycling, specialized administrative, technical and consulting activities, facility repairs, and more. Where deemed necessary and proven to be the most effective and efficient means for delivering services, dedicated and competent staff have been employed and are proposed to continue delivering services locally.

As identified in the following section, this proposed budget does reflect certain adjustments to ensure that core service deliverables are not only maintained but remain sustainable for the long-term. In proposing the priorities and adjustments reflected throughout this proposed budget, additional consideration was given to ensure that our limited resources are being invested into the service areas that support leading practices.

Conclusion

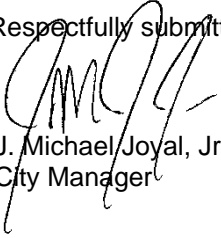

Over the course of the next several weeks, the department heads and I look forward to presenting more detailed information regarding the various revenue and expenditure items included in this proposed budget. With thoughtful discussion, citizen involvement and difficult decisions ahead, I trust we will again be able to assure Dover's citizens of a thoroughly reviewed and well reasoned budget having been adopted.

In closing, I wish to extend my sincere appreciation to the School Board, the School Superintendent, our department heads and all of their staff for the considerable effort expended in refining and assembling this budget proposal. I also wish to thank Dan Lynch, our Finance Director, for the considerable time and effort he has and will continue to invest throughout the budget development process.

Lastly, please join me in once again acknowledging not only the professionalism and commitment of our municipal employees but also their ongoing cooperation and understanding. Our employees make significant and extraordinary efforts day in and day out in delivering the many varied services and programs that contribute to the overall quality of life in our community.

As always, I extend my continuing admiration and appreciation to all who have contributed in the past and strive going forward to improve upon the exceptional and highly regarded community our City of Dover has become.

Respectfully submitted,

Budget Development

The budget continues to be developed with direction from the adopted City Financial Policies. These include maintenance of reserves, capital outlay financing and debt policies (the policies are included in the Table of Contents and Budget Information section of the budget).

The City's budget process commences in the fall of each year with the Capital Improvements Program (CIP) budget. All capital spending of \$25,000 or more for items with useful lives of 3 years or longer are included in the CIP. Based on City Council financing policy, items are identified for bonding, annual operating budget or other type of financing. Items identified for the annual operating budget are included in the next City Manager's recommended annual budget. Departments are responsible for submitting their annual budget request to the City Manager. After reviews with the departments, the City Manager makes any final adjustments to his recommended budget. The City Manager's recommended annual budget (which includes the School Board request) for the next fiscal year, is due to the City Council by April 15th of each year. The City Council may add to, or cut from, the Manager's recommended budget by majority vote; however, the City Council must pass the budget by June 15th after separate public hearings for the City and School budgets and the budget becomes effective July 1. If the City Council does not adopt the budget by June 15th, the City Manager's recommended budget takes effect July 1. After the original budget is adopted, the City Manager may make appropriation transfers within a non-school department or transfer between non-school departments with City Council approval. After initial adoption, the City Council may amend the budget by two-thirds vote.

Appropriations

The General Fund accounts for 78.9% of the operational spending of the City. The General Fund incorporates the spending in such areas as Police, Fire, Community Services and the School Department. The Proprietary Funds are the next largest group, making up nearly 11.9% of the City's spending. This group is self-supporting and includes the Water and Sewer Utility Funds, and the Internal Service Funds. The Internal Service Funds are grouped in this section as they have the same basis of accounting, with City departments as their primary customer. Special Revenue Funds are funds whose revenues are restricted to specific areas of spending, representing 9.2% of spending. Many are Federal grants, such as the Community Development Block Grant and the School Federal Education Funds. Other Special Revenue Funds were established by the City Council, such as the Parking Activity Fund and the Residential Solid Waste Fund. The FY14 budget continues to present the newly established OPEB Liability Fund which is utilized for accounting for the costs of retiree health insurance in a central location within the City budget.

Components of City Appropriation Increase

Salaries and wages – This portion of the budget represents an increase of \$1,135,806 or a 5.9% increase. There is an overall increase to staffing of 2.50 FTEs in all budgeted funds. These additional include the addition of a full-time Pump Station Operator in the Sewer Fund, a full-time Water/Sewer Utility Billing Bookkeeper, and a part-time Media Technician in the DoverNet Fund. A police officer position, formerly grant funded, is reflected within the Police Department’s General Fund portion of the budget.

Medical and dental insurance - The health insurance increase is included at a 4.9% rate increase as confirmed by the City's insurance provider. Dental insurance is included at an average 1.2% rate decrease. Health and Dental insurance represent a \$89,333 increase or 2.8% in the General Fund. Prior to FY96, the City used to pay 100% of the cost of health and dental insurance. Since FY96, employees have contributed toward the cost of health care. The table reflects the budgetary savings for active employees from FY08 through FY14 resulting from these initiatives. The \$11.7 million in savings to the City is the result of employee withholdings and the insurance buyout program.

Retirement – The City Retirement costs represent an increase of \$488,264 or 27.9%. The rates set by the New Hampshire Retirement System (NHRS) used to fund the NHRS are set every two years. NHRS increased rates effective July 1, 2013. The rates are applied against wages. In FY10 the State down-shifted a percentage of their contribution to the City, and an additional down-shift in cost from the State took place in FY11. The State down-shifting was scheduled to end in FY12 and return to the 35% State contribution towards Police and Fire (Group II) positions. However, in the FY12 -13 proposed biennial State budget the entire 35% State contribution towards Group II positions is a cost that has been down-shifted to the City. A component of the contribution rate increase is to address the unfunded liability of the NHRS. A portion of the employer contribution rates (70%) is an attempt to decrease the NHRS unfunded liability by FY2039.

Retirement Rates				
Group	FY13%	FY14%	Change	% Chng
City	8.80	10.77	1.97	22.4%
Police	19.95	25.30	5.35	26.8%
Fire	22.89	27.74	4.85	21.2%

Worker's Compensation – The City is self-insured for worker's compensation coverage. The actuarial determined annual premium allocations for the City General Fund departments increased \$192,845 or 81.8%. The actuarial report identified increased claim costs for FY2012 and projected increased claim costs for FY2013 and FY2014 as the basis for the increased premium allocations.

Purchased Services – This represents a net increase of \$21,128 or .07%. The largest increase represents \$14,600 for Waste Disposal Services, \$10,400 for Water and Sewer expense for Park facilities, and \$9,000 for Maintenance Charges for Building/Facility improvements. There is also an estimated \$10,845 decrease for office equipment maintenance charges.

Supplies - This represents a net decrease of \$21,356 or 0.9%. The largest decrease consists of utility costs, which represent a cumulative decrease of \$27,753 for Natural Gas, Electricity, Propane and Heating Oil. This projected savings is based upon implementing energy efficiency improvements. The next largest decrease of \$13,314 is for vehicle fuels. The largest increase is in the area of vehicle maintenance for \$16,715.

Capital Outlay – This represents a net increase of \$157,051 as compared to FY13. Although the increase is \$157,051, the direct impacts to project funding identified within the approved Capital Improvements Program for inclusion in the annual budget is substantial. The FY14 adopted CIP identified \$2,496,745 in Capital Outlay to be financed in the FY14 General Fund operating budget. The amount included in the General Fund budget for Capital Outlay, including the reserve transfer of \$575,000, is \$2,006,220 or 80.3% of the amount adopted in the CIP. The FY14 proposed General Fund budget for City departments reflects a 5.4% level for capital outlay, including the reserve transfer of \$575,000. Credit rating agencies believe that a minimum of 5% of the budget should be earmarked for capital outlay to avoid debt burden and to keep flexibility. The FY14 budget promotes the utilization of capital reserve funding to procure such capital equipment as police vehicles, public works heavy equipment, and fire/rescue equipment.

Other Expenses - This represents a net decrease of \$5,190 or 0.6%. The major changes relate to decreases of \$55,567 in Grants/Subsidies and a decrease of \$25,000 in Tax abatement overlay. These

City of Dover

decreases are offset by an increase of \$88,936 in Contingency to meet FY14 financial policy target of 0.34% of General Fund budget.

Transfers - This represents a net increase of \$476,271 or 20.09%. A transfer in the amount of \$2,006,172 to the OPEB Liability Fund for the General Fund portion of retirees' insurance obligations represents an increase of \$458,415. There is an increase of \$51,330 for a transfer to Police Dover Housing Authority grant fund to account for the reduced amount of federal funding to be received in FY14. The \$575,000 proposed to be added to the General Fund Capital Reserve is an amount required to be contributed to the reserve account to adequately fund planned CIP approved expenditures for Police Vehicles, Fire/Rescue Equipment, and Public Works Heavy Equipment.

Debt Service – The City Debt Service is a net increase of \$169,774 or 3.0%. A portion of the increase is attributable to the net impact for proposed debt issue in the Spring of 2014 for authorized projects such as Tolend Road Reconstruction.

General Fund Revenue

General Fund revenues are estimated at \$90,866,901 or 2.4% higher than the amounts for the prior year. Property Taxes represent 58.7% of all budgeted funds revenue and 74.4% of the General Fund's funding.

General Fund City revenue increased 12.6% and School revenue decreased 7.9%. The Property Tax levy is proposed to increase 2.7%. The net increase in City revenue is due to a

minor increase in motor vehicle registration permit fees and budgeting for the sale of the Armory on Oak Street. The decrease in the School revenue is attributable to a decrease in tuition revenue from neighboring school districts and reduction in the available amount of School Facilities Impact Fees used to offset the debt service costs for the Woodman Park School and Horne Street Elementary School improvement projects.

In order to not deplete reserves, no Budgetary Use of Fund Balance is recommended in this budget. This action may result in the building of some additional reserves by year end.

Property Tax Information

Property Tax Rate

The Property Tax Rate applies to each \$1,000 of assessed value of property in the City. The rate is arrived by dividing the net appropriations (appropriations less other revenue) by the net assessed value (total value less exemptions).

The table reflects the change in the estimated property tax rate that results from this budget's proposed appropriations and revenue estimates. Net local assessed value is estimated to be \$2,627,004,200. An estimated increase of \$15,000,000 for the value of new construction represents the increased in net local assessed value.

The assessed value used for estimating the tax rate is last year's assessed value plus true growth taken from building permits, adjusted for market conditions. The final rates will vary due to the finalized assessment values reported to the state in the fall.

City of Dover

Fiscal Year 2014 Budget Analysis

Property Tax Rate Comparison

Each year, the Department of Revenue Administration (DRA) takes the local tax rate of each community and adjusts it as if the local assessments were at full market value. Using equalized property tax rates, a comparison can be made between various communities as to whether the rates are higher or lower. Comparing to the median equalized property tax rate for all municipalities can determine whether a city has a higher or lower overall rate.

From a historical aspect, Dover's property tax rate has hovered at the median of all municipalities. The table shows 7 years of equalized tax rates for Dover and the median for all municipalities. This means that Dover's property tax rate is not in the higher or lower tax brackets, but is in the middle of the road and has been so over time. Maintaining this level of rate is good, considering the amount and quality of the services provided by the City. FY13 equalization numbers will not be available until later in the year.

Residential Property Taxes

Average residential property taxes have increased 3.4% annually in constant dollars over a 10 year period (5.8% annually in nominal or unadjusted dollars). Over a 5 year period the annual increases are 0.5% and 2.0% for constant and nominal dollars, respectively.

These were calculated by taking the average assessed value of all the residential properties in the City that have buildings on them and applying the property tax rate for each year.

Property Tax Fairness

Fairness in assessment of taxes is, and should be, of utmost importance to taxpayers. The State of New Hampshire relies on the assessment of values of properties at market value to attain this fairness or equity. The reason for changing assessments is a tax equity issue; i.e., that the tax burden is proportionally spread across all types of property. If assessed values are only changed every several years, in between the adjustments of value, should one class of property's market value grow faster than another, over time the class with faster growing market values will not be paying their fair share of property taxes. Conversely, a class of property whose market value grows slower than others will, over time, be paying more than their fair share. The logic that the City should, "leave the assessments alone" as taxpayers will pay too much if the City keeps changing them is the exact opposite of what is needed to achieve tax equity.

An important fact to remember is that an increase in total assessed value **does not** increase the total amount of property tax revenue the City receives. Increases or decreases to total assessed value only increases or decreases the property tax rate. The amount of taxes to be raised is determined by the budget process, including final revisions by the NH Department of Revenue Administration. There are statistical

City of Dover

measures available to determine what extent tax equity has been achieved. The following discussions review these statistical measures as they relate to the City assessed value.

Assessment to Market Ratio

The results of the ratios over the last few tax years are represented in the table below. The percentage is the assessed value divided by the market price. Table is in Tax Years (Tax Year 2012 = Fiscal Year 2013).

Property Class	2005	2006	2007	2008	2009	2010	2011	2012

Waterfront Land Only	93%	NA	NA	NA	NA	NA	NA	NA
Commercial/Industrial	89%	93%	86%	93%	94%	95%	96%	100%

The 2012 ratios are preliminary and are expected to be certified by the DRA in May 2013. Classes reflecting 'NA' had insufficient sale information. The International Association of Assessing Officers (IAAO) considers the ratios of each class of property reasonable if they are within +/- 10% of the overall ratio. The City strives to be within +/- 5%. Since Tax Year 2000 the City annually evaluates ratios to maintain equity in the various classes of property. In Tax Year 2012 (current), an analysis was completed to continue to maintain the assessments closer to market while retaining the equity across the various classes of property.

Equity in Tax Base

The best measurement of equity throughout the tax base is the Coefficient of Dispersion (COD). The table below reflects the City's COD by year. According to the International Association of Assessing Officers (IAAO), the measure of equity falls into the following ranges listed in the table.

Percent	Equity Measure
10% or less	Excellent assessment equity
11% - 14%	Good assessment equity
15% - 20%	Fair assessment equity
over 20%	Poor assessment equity

Another measure reviewed to assist in determining fair assessment is the Price-Related Differential (PRD). This statistic measures the relationship between higher valued properties and lower valued properties, and their respective assessments. This statistic answers the question: "Is there a bias for, or against, lower or higher valued properties?" For example, a PRD over 1.00 indicates a regressive assessment base, or, that higher value properties are assessed at a lower ratio, conversely, a PRD under 1.00 indicates a progressive tendency, or, shows that lower value properties are assessed at a lower ratio than higher value properties. Ideally, this statistic should be 1.00, but IAAO recommends that the PRD fall between .98 and 1.03.

Tax Year	COD	PRD
2003	8.4	1.000
2004	7.2	1.000
2005	7.3	1.000
2006	6.2	1.010
2007	7.2	1.010
2008	7.3	1.020
2009	7.5	1.000
2010	7.9	1.020
2011	7.1	1.020
2012*	9.5	1.027

The table reflects both the COD and PRD for the City of Dover. Since 2001, the City has continued to keep a COD in the excellent assessment equity level as reflected in the table. If the City had made no adjustments to values for changing market conditions in TY2012, it is estimated the COD would have increased to 10.4%. Also the PRD is within the acceptable range set by the IAAO. TY 2012 ratios are preliminary and are expected to be certified by the DRA in May 2013.

Other Major Funds

Appropriations

The two other major groups of budgets are the Enterprise Funds (including Internal Service Funds) and Special Revenue Funds. The Enterprise Funds consists of the Water and Sewer Utility Funds. These funds are supported by user fees and are accounted for on the full accrual basis.

The Water Fund is proposed at an increase of \$143,752 or 3.1%. The major components of the change are an increase of \$25,270 in personal services, \$13,420 in purchased

Total	13,064,939	13,761,837	696,898	5.3%

services. There is an estimated increase of \$91,916 in interest expense related to debt obligations for projects such as the North End Pressure Zone. There is an estimated increase of \$17,610 in depreciation expense related to newly acquired capital assets.

The Sewer Fund is proposed at an increase of \$303,198 or 4.7%. The increase mainly relates to an increase of \$206,055 in personal services, an increase of \$15,575 in purchased services, a decrease of \$49,725 in operating supplies and \$13,265 in other expenses. There is an estimated increase of \$40,991 in interest expense and \$20,000 in transfer into capital reserve fund. There is an increase of \$57,037 estimated for depreciation expense related to newly acquired capital assets.

The operations and maintenance portion of the Enterprise funds is reflected in the table to the right. This excludes depreciation, debt interest and transfers to capital reserves.

Operations & Maintenance				
Enterprise Funds	FY13	FY14	Change	% Chng
Water	2,575,424	2,609,650	34,226	1.3%

Total	5,935,531	6,154,927	219,396	3.7%

The Internal Service Funds (Workers Compensation, Fleet Maintenance, DoverNet and Central Stores) are also included for presentation purposes with the Enterprise section. The Special Revenue Funds make up the smallest share of the budgeted funds. Federal grant funds, including any related local match, make up the majority of the budgeted Special Revenue Funds. The major grant funds are the School Cafeteria, Education Federal Grant Funds and the Community Development Block Grant Fund. The remaining funds were created by the City Council such as the Parking Activity Fund and the Residential Solid Waste Fund.

In the proposed FY14 budget the Other Post Employment Benefit (OPEB) Liability Fund has been budgeted to centrally account for the City's OPEB obligations for retirees. As of June 30, 2012, the City has an estimated \$51.1 million OPEB liability and the Actuarial Determined Annual Required Contribution (ARC) is estimated at \$4,273,728. The proposed FY14 budget for the OPEB Liability Fund is \$1,385,130 for pay-as-you-go OPEB obligations for 97 retirees, an increase of \$72,018 or 5.48% over FY13 pay-as-you-go amount.

Utility Rates

The proposed budget reflects an increase to both the Water and Sewer rates. The utility rates are based on the cash needs of the Water and Sewer Funds. Depreciation expense and interest expense are deducted, along with other revenue

sources and actual principal and interest payments on debt are added back. This amount is then divided by the estimated billable volume in hundred cubic feet (HCF) to arrive at the rates.

Financial Conditions and Local Economy

Local Economy The local economic environment over the past fiscal year has improved very slightly except in specific sectors including advanced manufacturing and commercial construction, as well as a variety of services in architectural, cleaning, and fitness. General retail areas show small but consistent improvement. Economic Development activity continues to support existing business retention with some success despite the continued dearth of critically important credit and financing availability for local small businesses.

Through vigorous business relocation outreach coupled with stringent municipal spending restraint in the City's operations coupled with the approval of five Economic Revitalization Zone Districts have successfully brought forty-five new/ expanded businesses and 435 new jobs to Dover.

The expanding healthcare industry in the City, its proximity to UNH, Pease Tradeport, and the Portsmouth Shipyard have continued to add stability and diversity to the economic mix and has kept unemployment in Dover well below that of New Hampshire, New England, and the surrounding communities as well as the Nation. Becoming the fastest growing city in New Hampshire has helped Dover statistics as well.

New Hampshire's GDP and labor force in moderate decline since 2008, has now stabilized to some degree. At the conclusion of the 2012 fiscal year, the labor force of Dover has continued to grow about 1% per year with minor variations below and above the trend line.

Dover's local unemployment rate is currently 5.1% which is 0.4% higher than this time last year. The seasonally adjusted unemployment rate, consistently lower than that of the U.S. (8.3%) and the State of New Hampshire (5.4%), was up slightly at the end of fiscal year 2012; the national unemployment rate decreased by 0.8% in the same period.

In combination with the current economic environment and unemployment levels, the median household income in Dover increased by an estimated 1.25% from \$61,680 in FY11 to \$62,451 in FY12.

The number of motor vehicle permits increased to 30,838 in FY12 as compared to 29,280 in FY 11. The number of building permits increased from 358 in FY11 to 381 in FY12 and the average permit value increased from \$55,440 to \$62,427. Despite a slowing in residential development in Dover and across the country, commercial property development has continued at a slow pace throughout the year.

Although the residential development has slowed somewhat, the City saw moderate commercial growth during fiscal year 2012. Planning efforts have continued in anticipation of future residential and multi-use development projects being undertaken. Changes to land use regulations have been put in place to encourage both community character as well as streamline the regulations and remove barriers to context sensitive development.

Residential sales continue to improve slightly and are stabilizing as low mortgage rates and declining prices (now up slightly) are somewhat offset by more stringent down payment and credit quality requirements from lenders. Foreclosed properties continue to add to the unsold housing inventory on the market. The slight improvement in sales has affected the number of residential projects coming before the Planning Board. Projects now tend to be smaller and more market specific than in recent years.

Some commercial development has begun, heavily weighted in the rehabilitation sector. Some new construction projects have begun as financing options permit.

Hospitality industry development exists in proximity to the Liberty Mutual and Measured Progress campuses at the northern edge of the City. Current occupancy rates are improving rapidly with full occupancy being intermittently experienced.

The Exit 9 location on the Spaulding Turnpike has continued to enjoy development activity. The 100,000 sq. ft. medical practices building has reached full occupancy and a new dental group building and a dialysis facility has started operations.

In the downtown city core, the Childrens' Museum of New Hampshire continues to attract approximately 100,000 visitors annually to Dover bringing added vibrancy, customer traffic, and new dollars to downtown businesses and restaurants. Recently, there has been development of retail space within the Cochecho Falls Mill across the street from the Museum. This development shows the potential growth in retail uses along the Washington Street Corridor.

To further expand the downtown, the City has taken advantage of rezoning efforts in 2009 to create a more flexible and innovative development environment through the addition of the Form Based Code style of zoning. This zoning encourages mixed uses, and places a higher emphasis on height, massing and placement of a building than on the uses contained within the building. To date the Planning Board has reviewed three projects, including a conversion of 120,000 square feet of office space in the Cochecho Falls Mill into one hundred twenty (120) unit residential units. The demolition of the former office space has begun to make way for the work to be completed. These units will have dramatic views of the downtown Dover including the waterfront and will be rented to individuals.

The integration of the Dover waterfront redevelopment into the downtown continues with the opening of the Tommy and Mary Makem Memorial Bridge, extending Washington Street, and upgrade of the River Street Pump station. These additions coupled with the continued work of Dickenson Development to engineer and ultimately permit the portion of privately financed project includes commitments to construct high end residential units, more than 30,000 square feet of new retail and office space, boating facilities and a restaurant along the riverfront.

In the Locust Street industrial park, three new electronics assembly and component businesses are in a formerly vacant building, bringing 65 new jobs.

In the Enterprise Park, one new relocation candidate company is considering available parcels owned by DBIDA and another has purchased a DBIDA owned building it formerly leased. The purchase of the Cocheco Falls Mill by a mill developer is complete and is expected to bring 120 apartments to the downtown core. Efforts are continuing to develop City core infill projects to four City-owned parking lots along with a public parking garage.

The City's full value property tax rate remained stable in comparison to the NH State median. The median reflects the mid-point of all rates in the State. Because Dover remains approximately at the median, this means that about half of the tax rates in the State are higher than Dover's and about half are lower. This is a good measure of tax burden as all municipal assessed values are brought to full market value and tax rates equalized.

The recent trends in the national credit market continue to impact real estate activity throughout New England. While New Hampshire and Dover, in particular, are not immune, the level of increase in real estate transactions during the past year has been relatively small. The real estate sales activity in Dover for FY12 was 742 transactions versus 740 for FY11. This level of activity represents transfers of 7.5% of taxable parcels during FY12 remaining stable with the level of 7.5% in FY11. In conjunction with this activity, the number of taxable parcels increased from 9,873 in FY11 to 9,899 in FY12, a less than 0.01% increase. The stable volume of taxable parcels in combination

with a stabilization of property values has resulted in the estimated equalized property value per capita changing from \$92,051 for FY11 to \$89,532 in FY12, a decrease of 2.7% for the fiscal year.

Full market value as determined by the NH Department of Revenue Administration decreased 2.1% during the fiscal year. Assessed value as a

ratio of full market value was 97.3%. In the second half of fiscal year 2012 the City's assessed property values appeared to be demonstrating stabilization in values based on sales data. As of April 1, 2012 the City's overall assessed values demonstrated a .71% increase in value over the prior year.

The percentage of uncollected taxes for the current tax levy at the end of fiscal year 2012 decreased slightly to 4.7% as compared to 4.9% in FY11 (actual amount remaining unchanged at \$3.0 million). There were 355 parcels from the current tax levy with outstanding taxes that had a lien placed, down from 366 last year. The number of delinquent parcels decreased by 11, or 4.8%. The dollar amount of the liens decreased slightly to

2.4% of the tax levy as compared to 2.7% for last year. The actual amount of the executed lien decreased 4.8% from \$1,641,606 to \$1,563,176.

Financial Position The City's General Fund ended Fiscal Year 2012 with an increase

to its Unassigned Fund Balance of \$1,343,814 to \$7.28 million. The General Fund unassigned fund balance at June 30, 2012 was 8.21% of the FY13 budget (8% is the minimum requirement of the City Financial Policies). The Water Fund saw a decrease in unrestricted net assets of \$3.22 million, from \$3,205,197 to \$(10,698). The Water Fund decrease is primarily due to a \$3.29 million investment in capital assets during FY2012, the primary project being the North End Water Pressure Zone. The Sewer Fund saw a decrease in unrestricted net assets of \$1.73 million, from \$3,327,964 to \$1,602,236. A significant portion of the increase in unrestricted net assets of the Sewer Fund is the result of \$1.1 million investment in capital assets for the River Street Pump Station and Wastewater Treatment Facility Aeration Blower projects.

Unreserved Net Assets		
Fund	FY12	FY11
General	7,285,807	5,941,993
Water	(10,698)	3,205,197
Sewer	1,602,236	3,327,964
Total	8,877,345	12,475,154

In FY2009 the Arena Fund was dissolved into the City's General Fund. The City continues to be diligent to balance the fiscal operations of the Arena, including scheduled fee increases and expenditure control. The Arena operating results, inclusive of related debt obligations were revenues in excess of expenditures of \$64,809 in FY2012 and \$32,503 in FY2011.

The liquidity of the General, Water and Sewer Funds is good and continues to show a favorable trend. This is based on the quick ratio which is a measure of current assets (excluding inventories) divided by current liabilities. The General Fund had a quick ratio of 1.46 with Water and Sewer Funds of 1.42 and 2.07, respectively. A ratio of 1 is considered satisfactory.

The amount of debt incurred by the City remains below the State statutory limits as set forth in RSA 33:4-a for the City and School District, and RSA 33:5-a for the Water Fund. There is no statutory debt limit for the Sewer Fund. The State statutory limit for the City is 3% of Base valuation as determined by the New Hampshire Department of Revenue Administration (NH DRA), the statutory limit for the School District is 7% of Base valuation as determined by NH DRA, and the statutory limit for the Water Fund is 10% of base valuation as determined by NH DRA. As of June 30, 2012 the City had utilized 54.9% of its statutory debt limit, the School District utilized 14.7% of its statutory debt limit, and the Water Fund had utilized 5.3% of its statutory debt limit.

The City Council established self-imposed policy limits that are significantly lower than those set by State statute. As of June 30, 2012 the percent of the City's more conservative debt policy used was 84.5%, the School was 52.6%. General Fund net debt per capita is at \$2,288, an amount considered reasonable for a municipality the size of Dover. The General Fund's net debt to equalized value is 2.45%. The General Fund's net debt service as a percent of budget is 10.1%. Although this measure is higher than the 10% recommended by policy, it is partially as a result of a higher rate of debt pay down resulting in a favorable reduction in the cost for debt.

The Water fund is at 100% of the City Council self-imposed policy limit. The Sewer fund remained within the City Council self-imposed policy limits with 21.5% being utilized. Net debt service to budget in the Water Fund is 28.9% and 22.1% within the Sewer Fund, within the 40% set by policy.

In May 2012 Moody's downgraded the City's May 2010 Aa2 rating to an Aa3 rating. In May 2012 Standard & Poor's reaffirmed their May 2010 AA rating of the City.

Policy Monitoring, Long Term Financial Planning, and Responding to the Impact of the U.S. Economic Decline

On April 27, 2011 the City Council adopted a resolution to implement the 32 recommended financial policies. These adopted policies include maintaining all of the existing policy statements of 1996 with updates to several of the benchmark indices. In addition, several new policy statements are also included in the recommendations reflecting the most current best practices identified by the Government Finance Officers Association and the National Advisory Council on State and Local Budgeting. These financial policies address areas such as Stabilization Funds, Fees and Charges, Debt Issuance and Management, Use of One-Time and Unpredictable Revenues, Balanced Budgeting Practices, Revenue Diversification, and Contingency Planning. A copy of the financial policies adopted by the City Council is available on the City's website.

The City Council routinely adopts fiscal initiatives to respond to the changes in the economy that have resulted in impacts such as declines to non-property tax revenues and the community's tolerance for tax increases. The City Council has limited adoption of bonding authorizations to be consistent with the annual amount of debt being retired by the City's tax supported General Fund. The objective of this initiative is to move the City away from recurring debt financing and funding capital reserves at an appropriate level to move from debt financing certain capital outlay. These actions are consistent with the City's Debt Issuance and Management financial policies.

In FY2012 the City Manager, with the concurrence of the City Council, directed departments to manage expenditures to counter-balance both revenue shortfalls and increases in certain costs, while ensuring that operations resulted in a General Fund balance that is consistent with increasing the unassigned balance to 8% as prescribed by policy. The City Administration conducts an on-going evaluation of fiscal operations to insure that expenditures are managed in concert with revenues to insure General Fund Balance is maintained consistent with City policy limit. In FY2012 the City reached the prescribed 8% policy for unassigned General Fund Balance by ending the year with an 8.2% level.

In FY2012 the City was successful in contributing 5% of the actuarially calculated OPEB Annual Required Contribution to an established dedicated fund. This action is consistent with the City's financial policy objective for managing and prefunding the City's OPEB obligations.

In FY2012 the City, consistent with financial policies, maintained sufficient annual contributions into the General Fund Capital Reserve, Water Fund Capital Reserve and Sewer Fund Capital Reserve.

The City recognizes the importance of a formal process for long term financial planning and forecasting. The City has procured a formal forecasting software application to aid in financial planning. The City has populated the software with the necessary data and has utilized this tool to provide insight to evaluating policy recommendations. The software is utilized to provide formal fiscal forecasting reports complete with national, regional, and local economic overviews and a 5-year projection of both General Fund operations and tax levy impacts as part of the budget process.

PUBLIC LIBRARY

Division: Public Library

Function 45500

Mission Statement:

The Dover Public Library supports lifelong enjoyment of reading and learning, effectively delivering what we call “Solutions and Delight”. The focus of our staff, collections, programs and facilities is the provision of a broad range of information services, in multiple formats, which entertain, enlighten, empower, educate and enrich the citizens we serve.

Major Services/Responsibilities:

- To serve as both a physical space and virtual portal for the discovery of ideas, the joy of reading, and the power of information.
- To cultivate reading and learning activities for youth and teens: story times, homework help, enrichment and entertainment experiences, and summer reading programs.
- To offer research assistance, readers’ advisory services, and technical guidance in the use of electronic, online, and e-reader resources.
- To provide customer-focused library services through our website, including digitized resources, comprehensive research databases, and social software tools.
- To fill, through interlibrary loan services, patron requests for books and materials from libraries world-wide.
- To function as a community repository, preserving, and making accessible, an extensive collection of historical materials about Dover, the seacoast region and NH.
- To support our client libraries in the five Dover public schools by providing system administration for our shared library automation system.

Key Fiscal Year Objectives:

- In collaboration with the School Department, install and implement a new Library Automation System for the 6 Dovernet libraries.
- Redesign the library’s website with new content, new features, and user-friendly access.
- Continue successful outreach to patrons via social software platforms in order to promote the library, publicize services, and encourage use.
- Repair walls, woodwork, soffits and ceilings in the “addition” area on the Main floor.
- Partner with local agencies and organizations to co-sponsor programs and share resources, contributing to Dover’s sense of community and cohesiveness.

TAB 19

APPENDIX A

TAB 19

City of Dover
City Council Adopted
City Financial Policies

Stabilization Funds:

1. The City shall maintain adequate fund reserves to protect itself against emergencies and economic downturns.
 - a. General Fund – The City shall achieve and maintain a minimum unassigned fund balance of 8% of the General Fund’s annual budget, including City, School and County appropriations. The City Council may appropriate the General Fund unassigned fund balance for emergency purposes per City Charter Section C3-9 A or otherwise unanticipated expenses at year end, as deemed necessary, even if such use decreases the General Fund fund balance below the designated percentage. For purposes of this section the following shall apply:
 - i. Emergency purpose does not include the offsetting of property taxes.
 - ii. Unassigned fund balance will be defined by generally accepted accounting principles.
 - iii. The General Fund unassigned fund balance target level shall be achieved by annually budgeting a fund balance contribution over a six year period apportioned between both the City and School portions of the General Fund annual budget. These amounts shall be removed if the targeted level is achieved earlier.
 - b. Special Revenue Funds – Non Grant – The City shall achieve and maintain minimum unassigned fund balances of 5% of the total appropriations of each such fund budgeted.
 - c. Enterprise Funds – The City shall maintain net current assets (excluding unspent cash from bond proceeds) of 15% of the total appropriations of each such fund in a given fiscal year.
 - d. Internal Service Funds (in general) – The City shall maintain net current assets of 100% of inventory levels.
 - i. Workers Compensation Fund – The City shall maintain 100% funding for an actuarially determined claims liability based on a 65% confidence level.
2. The City shall establish a dedicated fund and maintain sufficient annual contributions to offset the liability associated with other post-employment benefit (OPEB) obligations.
 - a. OPEB Fund – The City shall achieve and maintain an annual contribution from the respective budgetary funds based upon the actuarially calculated Annual Required Contribution (ARC) for its OPEB obligation.
 - i. The OPEB annual contribution target level shall be achieved by annually budgeting in each of the respective budgetary funds, at a minimum, the current year OPEB related expense plus an additional amount equivalent to 5% of the ARC amount and increasing in increments of 5% each year. The increasing

City of Dover

increments will be stopped once the accumulated net OPEB related liability is decreased.

3. The City shall establish and maintain sufficient annual contributions into capital reserves for infrastructure and equipment needs associated with the City's major operating funds as identified and planned for in the annually adopted Six-Year Capital Improvements Plan (General, Water, and Sewer).
 - a. The General Fund Capital Reserve shall be funded at a minimum amount based on achieving a discounted ten year goal of \$5,000,000.
 - b. The Water Capital Reserve shall be funded at a minimum amount based on achieving a discounted ten year goal of \$5,000,000.
 - c. The Sewer Capital Reserve shall be funded at a minimum amount based on achieving a discounted ten year goal of \$5,000,000.
4. The City shall establish and maintain regular contributions into an employee benefit stabilization fund to be used to offset fluctuations in actual benefit related expenses from year to year.
 - a. The amount to be budgeted each year for health insurance premiums will be set based upon the average change in the cost of health insurance premiums over the prior 10 years.
 - b. When the actual premium costs paid are less than the amount budgeted, the savings will be contributed into a health insurance stabilization fund.
 - c. When the actual premium costs are more than the amount budgeted, funds will be withdrawn provided no more than 25% of the fund balance is depleted.
5. The City shall utilize year-end surplus funds to build and maintain stabilization funds at minimum levels giving priority for allocations to be made in the following order: unassigned fund balances, OPEB obligations, capital reserves and then benefit expenses.
6. Upon achieving minimum levels established for each stabilization related fund, should amounts fall below the minimum thresholds in subsequent years, the City shall include allocations in the following annual budgets to return to the minimum amounts specified.

Fees and Charges:

7. The various boards and commissions that advise the City Council and City Manager shall review all fees that support such functions annually and report recommended changes to the City Council and City Manager prior to the preparation of the annual budget.

City of Dover
City Council Adopted
City Financial Policies

8. It shall be the intent for the City to establish fees and charges to cover costs associated with providing certain services or programs that individually benefit a person, family or other specific segment of the community at a given time as opposed to utilizing funds derived from general tax dollars for services and programs intended to generally benefit the whole population of the community all of the time.
 - a. In establishing non-resident fees and charges, the City shall strive to cover all direct and indirect costs including debt service and inter-fund transfers associated with the service or program.
 - b. In establishing resident fees and charges, the City shall strive to cover, at a minimum, direct costs associated with the service or program.
9. The City shall continue to maintain all enterprise funds on a self-sustaining user fee basis, with no support from property tax revenues. Fees shall be set annually to support the adopted budget.
 - a. Water and Sewer fees shall be calculated by dividing the amount of money to be raised by the billable volume, in one hundred cubic feet units, expected for the year.
10. The City shall prepare and adopt a Fee Schedule in conjunction with the annual adoption of the budget that will itemize and provide the justification for all fees and charges to be levied in the coming fiscal year.

Debt Issuance and Management:

11. The City Council shall annually, by resolution, adopt a six year Capital Improvements Planning (CIP) document.
 - a. The CIP document shall contain a listing of all planned capital improvement program projects, identifying the source of financing and delineating the estimated impact to annual operations and maintenance.
 - b. The City Council shall typically appropriate the funding for multi-year projects at the same time it funds the first year portion of the project.
 - c. The first year of the adopted CIP shall provide the basis for the City Manager to develop the proposed capital outlay and debt service portions of the subsequent fiscal year budget.
12. The City shall maintain formal criteria for inclusion of a project in the CIP:
 - a. In order to be included within the CIP, a project needs to have an estimated annual aggregate cost of \$25,000 or more and have a useful life of three years or greater.
 - b. Projects must satisfy at least one of the following:
 - i. Protect the health and safety of employees and/or the community at large.

City of Dover
City Council Adopted
City Financial Policies

- ii. Significantly improve the efficiency of existing services.
- iii. Preserve a previous capital investment made by the City.
- iv. Significantly reduce future operating costs or increase future operating revenues.

13. The City shall finance qualifying CIP projects using established criteria:

- a. Debt Financed – Purchases financed by the issuance of bonds or capital leases. Purchase of assets of \$250,000 or more, nonrecurring within a five year period, and with a useful life of five years or more are recommended for debt financing. This shall include design costs for projects even when the costs occur in an earlier year.
- b. Capital Reserve Financed – Purchases financed by savings from annual appropriations over a period of time for assets over \$25,000 recurring or not. Capital reserves can be established for a specific item or a type of item.
- c. Grant Financed – Purchase of assets over \$25,000 partially or wholly funded by grants from the State or Federal government.
- d. Existing Funds Financed – After the CIP projects are submitted and compiled, any items that can be financed with existing funds shall be identified. Existing funds could be any funds available from savings from another project or other source of funds.
 - i. If bonded funds are to be used, the item has to meet the useful life criteria for the remaining years of amortization of the bond funds used.
- e. Operating Budget Financed – Purchase of assets of less than \$250,000 or recurring in nature, are recommended to be financed through the annual operating budget for the fund involved. Annual programs, whether over \$250,000 or not, are suited for operating budget financing due to the ongoing nature of the program.

14. In utilizing debt financing for CIP related projects, the useful life span of the capital project or item shall equal or exceed the years for amortization of the bond.

15. In consultation with the City’s designated financial advisor, the City shall regularly analyze and pursue bond refunding in instances where significant savings or other substantial benefits will be realized.

Debt Level and Capacity:

16. The City shall size the issuance of the local share of new debt so as not to exceed certain parameters in any given fiscal year:

- a. The City portion shall not exceed 65% of the State of NH legal limit.
 - i. The debt related to Tolend Landfill Closure is to be excluded in calculating the City portion for purposes of this section.

City of Dover
City Council Adopted
City Financial Policies

- b. The School portion shall not exceed 28% of the State of NH legal limit.
 - c. The Water portion shall not exceed 5% of the State of NH legal limit.

 - d. The Sewer portion shall not exceed 1.5% of the City's equalized assessed value for debt limits.
17. The City's net annual debt service (payment of principal and interest less reimbursements) shall not exceed certain parameters in any given fiscal year:
- a. General Fund debt service for a fiscal year shall not exceed 10% of the total appropriations of the General Fund.
 - i. The debt service related to Tolend Landfill Closure is to be excluded in calculating the City portion for purposes of this section.
 - b. Enterprise and Special Revenue Fund debt service for a fiscal year shall not exceed 40% of the total appropriations for the fund involved.
18. The City shall maintain a pay down of net debt (debt principal less reimbursements to be received) for each fund whereby 75% or more is retired within the next ten years.
19. To reduce reliance on an increased utilization of debt for capital related maintenance needs in future years, the City shall achieve and maintain a minimum level of capital outlay in each of the major operating funds as part of the annual budget adoption for sustaining the community's existing and future infrastructure and equipment:
- a. The target level of operating capital outlay to be included as part of the General Fund annual budget shall be increased annually to achieve at least 7.5% of total General Fund appropriations.
 - b. The target level of operating capital outlay to be included as part of the Water Fund annual budget shall be increased annually to achieve at least 13% of total Water Fund appropriations.
 - c. The target level of operating capital outlay to be included as part of the Sewer Fund annual budget shall be increased annually to achieve at least 11% of total Sewer Fund appropriations.

Use of One-Time Revenues:

20. The City shall use one-time revenues for the limited purpose for which they were intended or, in the absence of a specified purpose, for a non-recurring capital expenditure or as a contribution towards building established stabilization funds. One-time revenues shall not be used to fund existing operations.

City of Dover
City Council Adopted
City Financial Policies

- a. One-time revenues are those which are not expected to recur beyond a limited period or remain sustainable for a continued future use. These may include proceeds from sale of a specific asset, grant funds, etc.

21. Grant funds with continuing obligations beyond the grant period shall be reviewed and approved by vote of the City Council prior to acceptance of award.

Use of Unpredictable Revenues:

22. In such cases where adherence to a specific financial policy may not be possible or otherwise is not achieved, the nature of the deviation and the rationale shall be noted as part of the decision making process.

Accounting Structure and Basis

The governmental environment differs from that of business enterprises, however, the underlying accounting discipline shares many characteristics with commercial accounting. The principles for financial accounting and reporting for state and local governments are delineated by the Governmental Accounting Standards Board (GASB). The accounting of sources and uses of financial resources is accomplished with the use of various types of funds. Each fund is a self balancing accounting entity reporting the assets, liabilities, net assets and performance of the fund. The types and sub types of funds and their purposes are presented below.

Fund Structure:

Governmental Funds - Uses the modified accrual basis of accounting and budgeting.

General Fund - To account for basic governmental services supported mainly by property taxes. For example; Police and Fire & Rescue. Accounts for all sources and uses of funds not required to be accounted for in another fund. Basis of budgeting same as accounting except for property tax revenue, budget reflects the full levy for the current year only and is not adjusted for deferral.

Special Revenue - To account for the proceeds of specific revenues that are legally restricted to expenditure for specific purposes. An example would be a Federal Grant, other than for a capital project. For example, this includes the Community Development Block Grant, School Cafeteria, School Categorical Aid grants, the Residential Solid Waste Fund and the Parking Activity Fund.

Capital Projects - To account for acquisition or construction of major capital facilities. For example, this includes the General Fund Projects of each year's Capital Improvement Program. Also includes the Tolend Road Landfill Closure Fund. This excludes capital projects pertaining to Proprietary Funds which are accounted for within those funds.

Proprietary Funds - Uses the accrual basis of accounting and budgeting, except that budgeted capital outlay items are treated as assets for accounting purposes and not reflected as expenditures.

Enterprise Funds - To account for operations financed (primarily by user fees) and operated in a manner similar to private business. This includes the Water, Sewer, Arena and Dover Industrial Development Authority funds.

Internal Service - To account for services provided to various departments of the City on a cost reimbursement basis. This includes the Workers Compensation Funds, Garage Fund, Central Stores and the 457 Deferred Compensation Fund.

Fiduciary Funds - Uses the accrual basis of accounting, except for Expendable Trusts which use modified accrual basis. These funds are not generally budgeted as they are restricted to specific uses.

Trust Funds - To account for moneys held by the City Trustees to meet the intended purpose of the trust instrument. Types include Expendable and Non-Expendable. Expendable trusts can spend the principal for the intent of the trust, such as the Motor Vehicle Waste Reclamation Fund. Non-Expendable can spend only accumulated income. These make up the majority of Trust Funds and include the Cemetery Perpetual Care and Maintenance Funds.

Agency Funds - To account for moneys held by the City acting as agent to individuals, private organizations, or other governmental units. An example is Performance Bonds held for specific purposes or the Cocheco Riverwalk Fund.

An important concept to remember is that only the minimum number of funds should be established to be consistent with legal and operating requirements of the City. Excess number of funds can result in inflexibility, undue complexity, and inefficient financial administration. For efficient cash administration the City operates with a centralized cash account, reflected within the General Fund, for all funds except trust.

Accounting Structure and Basis

Basis of Accounting and Budgeting of Funds:

Modified Accrual - Revenues are recognized when measurable and available (cash received during fiscal year or within 60 days of year end).

Expenditures are recognized in the period when the liability is incurred, if measurable regardless of when cash is disbursed. An exception is made for unmatured interest on general long term debt which is recognized when due.

Accrual - Revenues are recognized when earned and become measurable regardless of when cash is received.

Expenses are recognized in the period when the liability is incurred, if measurable, regardless of when cash is disbursed.

Budgetary Accounts:

A budgetary account for revenues and expenditures is identified using six sets of numbers. The first series of numbers relates to the fund, the second the function. A function represents a cost center within a fund. Function usually denotes a division of a department. These numbers are found in the upper left hand corner of the detail pages within a department's section of the budget. The third set relates to the object of the transaction. The next 2 series of numbers relate to Project & Fiscal Year, used mainly with grants and Capital Projects. The final set relates to the Department. The budget is primarily organized by department, then function. Functions are categorized according to the following major categories:

41000 General Government - Functions which support general operations to both the public and other departments of the city, including the legislative body. For example, the Planning Department.

42000 Public Safety - Functions which provide protection of the citizenry and its property. For example, the Police Department and Fire and Rescue.

43000 Public Works - Functions which provide the construction and maintenance of the infrastructure of the city, such as buildings, roads, drains and utilities. For example, Community Services Department's Streets and Drains Division.

44000 Human Services - Functions which provide social services to the economically disadvantaged. For example, the Human Services' Welfare Division.

45000 Culture and Recreation - Functions which provide cultural, including informational services, and recreational activities for the citizens. For example, the Public Library and the Community Services Department's Indoor Pool Division.

47000 Debt Service - Functions which accounts for the payment of principal and interest on both long and short term debt, such as bonds or Tax Anticipation Notes. Found in the General Fund only under the Other Charges tab.

49000 Transfers - Functions which accounts for the transfer of funds from the General Fund to other funds of the city.

48000 Intergovernmental - Functions which accounts for payments to other governmental unit, such as the County Tax apportionment.

46900 Education - Functions which provide educational services to all ages of citizens, mainly grades one through twelve.

Accounting Structure and Basis

The third series of numbers relates to a revenue or expenditure object. A series of standard revenue and expenditure objects is used for all budgeted funds.
